If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 8.01 Other Matters.

The American Rescue Plan, which was signed into law on March 11, 2021, includes a provision for pension relief that extends the amortization period for required contributions from 7 to 15 years and provides for the stabilization of interest rates used to calculate future required contributions. As a result, based on year-end 2020 pension data and assumptions, current projections indicate that Unisys Corporation (the “company”) will not be required to make any cash contributions to its U.S. qualified defined benefit pension plans in the near term and the company has determined that it will not make the previously-contemplated voluntary \$200 million contribution to its U.S. pension plans in 2021.

Any future material deterioration in the value of the company’s U.S. qualified defined benefit pension plan assets, as well as changes in pension legislation, discount rate changes, asset return changes, or changes in economic or demographic trends, could require the company to make cash contributions to its U.S. defined benefit pension plans sooner than currently anticipated.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
