BLUE BELL, Pa., November 4, 2026 – Unisys Corporation (NYSE: UIS) reported financial results for the third quarter of 2026 (3Q26).

"The year continues to gain momentum, with the third quarter building on a solid first half," said Michael Thomson, Unisys CEO and President. "New business signings once again were strong, and client interest continues to deepen across the portfolio. Our AI-First execution is transforming our delivery, opening new markets in agentic services, AI infrastructure and the ClearPath ecosystem."

Unisys Chief Financial Officer Deb McCann said, "We are pleased with our third quarter results. Revenue came in ahead of our expectations, led by TS&S, and our non-GAAP operating profit margin of 7.2% was above what we had guided. Together with our fourth quarter visibility, this supports the increase to our full-year revenue guidance and our reaffirmed profitability guidance."

Financial Highlights

Please refer to the accompanying financial tables for a reconciliation of the GAAP to non-GAAP measures presented, except for financial guidance since such a reconciliation is not practicable without unreasonable effort.

Third Quarter 2026 Results

Revenue increased 2.5% YoY, up 0.6% in constant currency. Gross profit margin improved 120 bps YoY, primarily driven by a higher mix of software licenses relative to hardware within ClearPath renewals, partially offset by higher cost reduction charges.

TS&S revenue increased 2.6% YoY, or up 0.9% in constant currency. TS&S gross profit margin decreased 200 bps YoY, primarily driven by higher cost reduction charges.

During the third quarter of 2026, gross profit margin and TS&S gross profit margin benefited by approximately 50 and 70 bps, respectively, from a first quarter transaction within the company's United Kingdom business process outsourcing consolidated joint venture. This transaction is expected to generate gross profit benefit of approximately $3 million quarterly and $12 million for full-year 2026. The financial impact of this transaction will be fully recognized by year end.

For the third quarter of 2026, net loss attributable to Unisys Corporation included a non-cash pension settlement loss of $151 million, net of tax, as a result of the purchase of a group annuity contract to transfer approximately $200 million of projected U.S. defined benefit pension liabilities to a third-party insurer, funded with plan assets. Including this transaction, the company has reduced approximately $520 million of U.S. qualified defined benefit pension plan liabilities since July 2025, working towards its approximately $600 million reduction target. The company expects to complete an additional pension settlement in the first half of 2027 to substantially achieve this objective.

Third Quarter 2026 Segment Results

DWS revenue increased 3.9% YoY, or up 1.7% in constant currency, primarily driven by higher hardware revenue. DWS gross profit margin was 9.5%, a decrease of 670 bps YoY, primarily due to known client attrition, and increased implementation and delivery costs.

CA&I revenue declined 0.1% YoY, down 1.2% in constant currency. CA&I gross profit margin was 20.6%, an increase of 100 bps YoY, primarily driven by delivery improvements.

ECS revenue increased 5.6% YoY, up 2.7% in constant currency, primarily driven by higher specialized project work in the business processing solutions. ECS gross profit margin was 55.5%, an increase of 930 bps YoY, primarily driven by a higher mix of software licenses relative to hardware within ClearPath renewals.

2026 Financial Guidance

The company raises full-year 2026 revenue growth in constant currency and reaffirms profitability guidance:

	Guidance	Prior Issued Guidance
Revenue growth in constant currency	(3.0)% to (1.5)%	(5.0)% to (3.5)%
Non-GAAP operating profit margin	9.0% to 11.0%	9.0% to 11.0%

Constant currency revised revenue guidance translates to reported revenue growth of (0.4)% to 1.1%, based on exchange rates as of the end of 3Q26. The revised guidance assumes ClearPath revenue of approximately $425 million and TS&S constant currency revenue growth of (3.0)% to (1.0)%.

Conference Call

In addition, domestic callers can dial 1-844-695-5518 and international callers can dial 1-412-902-6749 and provide the following conference passcode: Unisys Corporation Call.

A webcast replay will be available on the Unisys Investor Website shortly following the conference call. A replay will also be available by dialing 1-855-669-9658 for domestic callers or 1-412-317-0088 for international callers and entering access code 3578869 from two hours after the end of the call until November 19, 2026.

(1) **Constant currency** – A significant amount of the company's revenue is derived from international operations. As a result, the company's revenue has been and will continue to be affected by changes in the U.S. dollar against major international currencies. The company refers to revenue growth rates in constant currency or on a constant currency basis so that the business results can be viewed without the impact of fluctuations in foreign currency exchange rates to facilitate comparisons of the company's business performance from one period to another. Constant currency is calculated by retranslating current and prior-period revenue at a consistent exchange rate rather than the actual exchange rates in effect during the respective periods.

(2) **Backlog** – Represents the estimated amount of future revenue to be recognized under contracted work, which has not yet been delivered or performed. The company believes that actual revenue reflects the most relevant measure necessary to understand the company's results of operations, but backlog can be a useful metric and indicator of the company's estimate of contracted revenue to be realized in the future, subject to certain inherent limitations. The timing of conversion of backlog to revenue may be impacted by, among other factors, the timing of execution, the extension, nullification or early termination of existing contracts with or without penalty, adjustments to estimates in pricing or volumes for previously included contracts, seasonality and foreign currency exchange rates. Investors are cautioned that backlog should not be relied upon as a substitute for, or considered in isolation from, measures in accordance with GAAP.

(3) **Total Contract Value (TCV)** – Represents the initial estimated revenue related to contracts signed in the period without regard for early termination or revenue recognition rules. Changes to contracts and scope are treated as TCV only to the extent of the incremental new value. New Business TCV represents TCV attributable to expansion and new scope for existing clients and new logo contracts. ClearPath TCV is driven by software license renewals, and as such, changes in timing or terms of renewals can lead to fluctuations from period to period. The company believes that actual revenue reflects the most relevant measure necessary to understand the company's results of operations, but TCV can be a useful leading indicator of the company's ability to generate future revenue over time, subject to certain inherent limitations. Measuring TCV involves the use of estimates and judgments and the extent and timing of conversion of TCV to revenue may be impacted by, among other factors, the types of services and solutions sold, contract duration, the pace of client spending, actual volumes of services delivered as compared to the volumes anticipated at the time of contract signing, and contract modifications, including, without limitation, contract nullification and termination, over the lifetime of a contract. Investors are cautioned that TCV should not be relied upon as a substitute for, or considered in isolation from, measures in accordance with GAAP.

(4) **Book-to-bill** – Represents total contract value booked divided by revenue in a given period.

(5) **New Business** – Represents expansion and new scope for existing clients and new logo contracts.

(6) **Non-GAAP operating profit** – This measure excludes pretax pension and postretirement expense, pretax goodwill and intangible asset impairment charges and pretax charges or gains associated with certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings, and cost-reduction activities and other expenses.

(7) **EBITDA & adjusted EBITDA** – Earnings before interest, taxes, depreciation and amortization (EBITDA) is calculated by starting with net income (loss) attributable to Unisys Corporation common shareholders and adding or subtracting the following items: net income (loss) attributable to noncontrolling interests, interest expense (net of interest income), provision for (benefit from) income taxes, depreciation and amortization. Adjusted EBITDA further excludes pension and postretirement expense; goodwill and intangible asset impairment charges, foreign exchange (gains) losses, debt extinguishment, certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; cost reduction activities including workforce reduction actions, lease abandonment costs, asset impairment charges and other costs associated with exited operations and facilities; non-cash share-based expense; and other (income) expense adjustments.

(8) **Non-GAAP net income (loss) and non-GAAP diluted earnings (loss) per share** – These measures exclude pension and postretirement expense and charges or (credits) in connection with goodwill and intangible asset impairment; foreign exchange (gains) losses, debt extinguishment, certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; and cost reduction activities including workforce reduction actions, lease abandonment costs, asset impairment charges and other costs associated with exited operations and facilities. The tax amounts related to these items for the calculation of non-GAAP diluted earnings (loss) per share include the current and deferred tax expense and benefits recognized under GAAP for these items.

(9) **Free cash flow** – Represents cash flow from operations less capital expenditures.

(10) **Pre-pension and postretirement free cash flow** – Represents free cash flow before pension and postretirement contributions.

(11) **Adjusted free cash flow** – Represents free cash flow less cash used for pension and postretirement funding; debt extinguishment, certain legal matters related to settlements, professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; and cost reduction activities and other payments.

(12) **ClearPath**® – Represents software license and related support services, primarily ClearPath Forward™, within the company's ECS segment.

(13) **Technology Solutions & Services (TS&S)** – These measures include the revenue, gross profit and gross profit margin of the company's DWS segment, CA&I segment and ECS segment, excluding ClearPath software license and support services. The company provides these measures to allow investors to isolate the impact of software license

renewals, which tend to be significant and impactful based on timing, and related support services in order to evaluate the company's business outside of these areas.

Forward-Looking Statements

This release contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Unisys cautions readers that the assumptions forming the basis for forward-looking statements include many factors that are beyond Unisys' ability to control or estimate precisely, such as estimates of future market conditions, fluctuations in foreign currency exchange rates, the behavior of other market participants and that TCV is based, in part, on the assumption that each of those contracts will continue for their full contracted term. Words such as "anticipates," "estimates," "expects," "projects," "may," "will," "intends," "plans," "believes," "should" and similar expressions may identify forward-looking statements and such forward-looking statements are made based upon management's current expectations, assumptions and beliefs as of this date concerning future developments and their potential effect upon Unisys. There can be no assurance that future developments will be in accordance with management's expectations, assumptions and beliefs or that the effect of future developments on Unisys will be those anticipated by management. Because actual results may differ materially from those expressed or implied by these forward-looking statements, we caution readers not to place undue reliance on these statements. Forward-looking statements in this release and the accompanying presentation include, but are not limited to, statements made in Mr. Thomson's and Ms. McCann's quotations, any projections or expectations of revenue growth, margin expansion, achievement of operational efficiencies and savings, effective use of technology, investments in our solutions and artificial intelligence adoption and innovation, TCV and New Business TCV, the impact of new logo signings, backlog, book-to-bill[(4)], full-year 2026 revenue growth and profitability guidance, including reported and constant currency revenue, growth and the foreign currency exchange rate assumptions underlying the translation of constant currency guidance to reported guidance, TS&S constant currency revenue growth, ClearPath revenue, non-GAAP operating profit margin, free cash flow generation and the assumptions and other expectations made in connection with our full-year 2026 financial guidance, the reduction of uncertainty and volatility of cash requirements, including pension contributions and the amount and timing of future pension settlements, our pension liability, debt extinguishment, future economic benefits from net operating losses and statements regarding future economic conditions or performance.

Additional information and factors that could cause actual results to differ materially from Unisys' expectations are contained in Unisys' filings with the U.S. Securities and Exchange Commission (SEC), including Unisys' Annual Reports on Form 10-K and subsequent Quarterly Reports on Form 10-Q, recent Current Reports on Form 8-K, and other SEC filings, which are available at the SEC's web site, http://www.sec.gov. Information included in this release is representative as of the date of this release only, and any forward-looking statement speaks only as of the date on which that statement is made. While Unisys periodically reassesses material trends and uncertainties affecting Unisys' results of operations and financial condition in connection with its preparation of management's discussion and analysis of results of operations and financial condition contained in its Quarterly and Annual Reports filed with the SEC, Unisys does not, by including this statement, assume any obligation to review, revise or update any forward-looking statement in light of future events or circumstances, except as required by applicable law.

Non-GAAP Information

This release includes certain non-GAAP financial measures that exclude certain items such as pension and postretirement expense; goodwill and intangible asset impairment charges, foreign exchange (gains) losses, debt extinguishment, certain legal and other matters related to professional services and legal fees, including legal defense costs, associated with certain legal proceedings; environmental matters related to previously disposed businesses; and cost-reduction activities and other expenses that the company believes are not indicative of its ongoing operations, as they may be unusual or non-recurring. The inclusion of such items in financial measures can make the company's profitability and liquidity results difficult to compare to prior periods or anticipated future periods and can distort the visibility of trends associated with the company's ongoing performance. Management also believes that non-GAAP measures are useful to investors because they provide supplemental information about the company's financial performance and liquidity, as well as greater transparency into management's view and assessment of the company's ongoing operating performance.

Non-GAAP financial measures are often provided and utilized by the company's management, analysts, and investors to enhance comparability of year-over-year results. These items are uncertain, depend on various factors, and could have a material impact on the company's GAAP results for the applicable period. These measures should not be relied upon as substitutes for, or considered in isolation from, measures calculated in accordance with U.S. GAAP. A reconciliation of these non-GAAP financial measures to the most directly comparable financial measures calculated and reported in accordance with GAAP can be found below except for financial guidance and other forward-looking information since such a reconciliation is not practicable without unreasonable efforts as the company is unable to reasonably forecast certain amounts that are necessary for such reconciliation. This information has been provided pursuant to the requirements of SEC Regulation G.
