Report of Independent Registered Public Accounting Firm

The Plan Administrator
Unisys Savings Plan:

We have audited the accompanying statements of net assets available for benefits of the Unisys Savings Plan (the Plan) as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, Schedule H, line 4i - Schedule of Assets (Held at End of Year) - December 31, 2009 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

UNISYS SAVINGS PLAN
Notes to Financial Statements
December 31, 2009 and 2008

1. PLAN DESCRIPTION

The Unisys Savings Plan (the Plan) is a defined contribution plan that covers nonbargaining employees paid from a United States payroll of Unisys Corporation (the Company) and bargaining unit employees whose collective bargaining agreement provides for participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Participants should refer to the Plan document, summary plan description and their respective bargaining unit agreement, if applicable, for complete information.

(a) Contributions

Each plan year, participants may contribute up to 30% or 18% of their pretax eligible compensation up to the prescribed Internal Revenue Code of 1986, as amended (the Code) limit, depending on their classification as a non-highly compensated or highly compensated employee, respectively. Participants who are age 50 or older and meet certain other plan requirements regarding contributions may make catch-up contributions to the Plan. Participants may also make after-tax contributions up to 6% of their eligible compensation. Commencing January 1, 2007 the Company can make a nondiscretionary matching contribution in Company Common Stock or cash, as determined by the Company in its sole discretion, equal to 100% of the first 6% of eligible compensation deferred by the participant on a pretax basis. The Plan also allows for rollover contributions from other qualified defined contribution plans. Effective January 1, 2009, the Company elected to suspend the company match. Employees are still eligible to make unmatched pretax and after-tax contributions.

(b) Investment Options

Participants may elect to have their current contributions and existing account balances invested in certain investment options offered and managed by Fidelity Management & Research Company and Fidelity Management Trust Company (Fidelity). Information regarding the investment options is provided to each participant through electronic media, or printed media upon request, and prepared materials provided by the Company and in each investment fund's prospectus made available by Fidelity.

(c) Participant Accounts

Each participant's account is credited with the participant's contributions, matching contributions from the Company and allocations of Plan earnings (losses) and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit to which a participant is entitled is equal to the vested portion of his or her account.

(d) Vesting and Forfeitures

Plan participants who were actively employed on January 1, 2000 or later are immediately vested in their account balances at all times. Before January 1, 2000, participants were fully vested after five years of services, as defined in the Plan document.

(e) Participant Loans

Participants may borrow from their Plan accounts up to a maximum equal to the lesser of: (i) the lesser of \$50,000 or 50% of their vested account balance; or (ii) the greater of \$10,000, or one-half of the value of the vested portion of the employee's accounts under all plans maintained by the Company and all affiliates. Loan terms range from one to five years, or up to 15 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a fixed rate of interest that is commercially reasonable, as determined by the Plan Manager. A participant may not have more than one loan outstanding. Principal and interest is paid ratably through payroll deductions. Participant loans outstanding at December 31, 2009 bear interest ranging from 4.0% to 10.5%. As of December 31, 2009, participant loan maturity dates ranged from January 2010 to January 2025. Participant loans are valued at amortized cost.

(f) Payment of Benefits

On termination of service, a participant may receive a lump-sum amount equal to the vested balance of his or her account or elect to rollover his or her balance into an eligible retirement plan as defined in the Code, including another qualified plan the terms of which permit the acceptance of rollover distributions. Upon death, disability, or retirement, a participant may elect to receive payments in the form of an annuity or annual installments payable to the participant or his or her estate over a period no greater than the joint life expectancy of the participant and his or her beneficiary. Plan participants also may receive in-service withdrawals in certain circumstances as defined in the Plan.

(g) Plan Termination

The Company has the right under the Plan to discontinue its matching contributions and/or to terminate the Plan at any time subject to the provisions of ERISA. As of December 31, 2009, the Company has not expressed any intent to terminate the Plan. In the event of plan termination, participants remain 100% vested in their accounts.

2. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of Accounting

The accompanying financial statements were prepared under the accrual basis of accounting, except for benefit distributions, which are recorded when paid.

(b) Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of registered investment companies are valued at quoted market prices, which represent net asset values of shares held by the Plan at year-end. The fair value of the participation units owned in the commingled pool fund are based on quoted redemption values on the last business day of the plan year. Shares of Unisys common stock are valued at the closing market price on the last day of the plan year.

The Sysys Interest Income Fund includes investments in synthetic guaranteed investment contracts issued principally by insurance companies and financial institutions. As required by accounting rules, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Contract value represents contributions and reinvested income, less any withdrawals plus accrued interest, because these investments have fully benefit-responsive features. All participant-initiated transactions with the fund are permitted at contract value. Withdrawals may not be transferred to competing (short-term bond) funds for 90 days. No other conditions, limits, or restrictions apply to participant-initiated transactions to or from the Interest Income Fund. However, withdrawals influenced by Company-initiated events, such as in connection with the sale of a business, may result in a distribution at other than contract value. The Plan Administrator does not believe that the occurrence of any of these events which would limit the Plan's availability to transact at contract value is probable of occurring. No reserves have been provided or are considered necessary against contract values for credit risk of contract issuers or otherwise. Crediting interest rates as of December 31, 2009 and 2008 ranged from 0.26% to 2.04% and 2.16% to 4.11%, respectively. Interest rates are set at the time the contract is negotiated and, depending on the terms of the contract, are fixed through the maturity date or are re-set monthly or quarterly. The average yield on the contracts was 2.51% and 4.58% for 2009 and 2008, respectively.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is reported on the accrual basis. Dividends are recorded on the ex-dividend date.

(d) Recent Accounting Pronouncements

In 2009, the Plan adopted the Financial Accounting Standards Board's (FASB) Accounting Standards Codification (the Codification). The Codification is not expected to change U.S. generally accepted accounting principles but combines all nongovernmental authoritative standards into a comprehensive, topically organized online database. All other accounting literature excluded from the Codification will be considered nonauthoritative. All references to authoritative accounting literature have been made in accordance with the Codification.

In September 2009, the Plan adopted FASB authoritative guidance that establishes the accounting for, and disclosure of, material events that occur after the balance sheet date but before the financial statements are issued. In general, these events will be recognized if the condition existed at the date of the balance sheet, but will not be recognized if the condition did not exist at the balance sheet. Disclosure is required for nonrecognized events if required to keep the financial statements from being misleading. This guidance is very similar to previous guidance provided in auditing literature. The adoption of this new guidance did not result in significant changes in practice and did not have a material impact on the Plan.

For the year ended December 31, 2009, the Plan adopted an ASC update for fair value measurements and disclosures related to certain alternative investments. The guidance permits the use of a qualifying investment's net asset value per share to estimate fair value, as a practical expedient to measuring fair value. The update also requires additional disclosure by category of investment about the nature and risks of investments within its scope that are measured at fair value on a recurring or nonrecurring basis. This update was effective for the Plan for the year ended December 31, 2009. The adoption of this new guidance did not have an impact on the Statement of Net Assets Available for Benefits or the Statement of Changes in Net Assets Available for Benefits.

In January 2010, the FASB issued another update to the fair value measurements and disclosures topic, requiring additional disclosures regarding fair value measurements, amending disclosures about post-retirement benefit plan assets and providing clarification regarding the level of disaggregation of fair value disclosures by investment class. The provisions of this update to the fair value measurements and disclosures topic are effective for reporting periods beginning after December 15, 2009, except for certain Level 3 disclosure requirements that will be effective for reporting periods beginning after December 15, 2010. The Plan is currently evaluating the impact of the adoption of this update to the fair value measurements and disclosures topic effective as of January 1, 2010.

3. FAIR VALUE MEASUREMENT

Accounting rules have established a fair value hierarchy that encourages the use of observable inputs when measuring fair value, but allows for unobservable inputs when observable inputs do not exist. The following provides a description of the three levels of inputs used to measure fair value and the types of Plan investments.

Level 1 - Quoted prices in active markets for identical investments

Common Stock, Mutual Funds, and Money Market Funds

These investments are valued using quoted prices in an active market. Units of registered investment companies are public investment securities valued using the Net Asset Value (NAV) provided by the Trustee. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, divided by the number of shares outstanding. The NAV is a quoted price in an active market.

Level 2 - Inputs other than Level 1 prices that are observable, either directly or indirectly, such as quoted prices in active markets for similar investments, quoted prices for identical or similar investments in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the investment.

Commingled Pool Fund, Commingled Bond Funds

These investments are public investment securities valued using the NAV provided by the Trustee. The NAV is quoted on a private market that is not active; however, the unit price is based on underlying investments, which are traded on an active market.

Unisys Interest Income Fund

The fund invests in a diversified portfolio of short-term bonds and other fixed income securities. The fund also purchases third party wrap contracts that are designed to permit the fund to use contract value accounting to provide for the payment of participant directed withdrawals and exchanges at contract value under most circumstances. Investments in wrap contracts are fair valued using a discounted cash flow model that considers recent fee bids as determined by recognized dealers, discount rate, and the duration of the underlying portfolio securities. Underlying debt securities, including restricted securities are valued based on quotations received from dealers who make markets in such securities or by independent pricing services.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value measurement of the investment.

The Plan has no Level 3 investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2009 (in thousands):

	Fair value	Level 1	Level 2	Level 3
Mutual Funds:				
Equity	\$ 757,805	\$ 757,805	\$ --	--
Balanced	369,276	369,276	--	--
Bonds	131,756	131,756	--	--
Money Market	147,777	147,777	--	--
Common Collective Trusts:				
Equity	15,742	--	15,742	--
Debt	18,071	--	18,071	--
Unisys Common Stock Funds	109,714	109,714	--	--
Unisys Interest Income Fund	285,872	--	285,872	--
	\$1,836,013	\$1,516,328	\$319,685	--

Investments that represent 5% or more of fair value of the Plan's assets are as follows:

	December 31	
	2009	2008

(In Thousands)		
Unisys Interest Income Fund (stated at contract value)	\$285,381	\$306,867
Fidelity Institutional Money Market Fund	110,393	122,809
Fidelity Asset Manager Fund	113,364	97,323
Fidelity Magellan Fund	120,387	94,061
Fidelity Asset Manager Growth Fund	108,612	90,450
Fidelity Contra Fund	98,299	81,280
Unisys Stock Fund	107,345	29,063

Employer matching contributions to the Plan are invested in the Unisys Stock Fund. Because of a change in Federal law, effective January 1, 2007, the Plan allows participants the right to move any portion of their account that is added to the participant's Plan account on or after January 1, 2007 that is invested in the Unisys Stock Fund, into other investment alternatives under the Plan. This right extends to all of the Unisys Stock Fund held under the Plan, except that it applies within limits to participant's pre-2007 account balance. Prior to January 1, 2007, the Plan allowed a participant who was age 50 or older to divest up to 100% of their pre-2007 Unisys Stock Fund holdings. Effective January 1, 2007, Plan participants can divest up to 100% of their pre-2007 holdings in the Unisys Stock Fund as of January 1st of the calendar year in which the participant turns 50. In accordance with the transition provisions of the Federal law, Plan participants under age 50 with at least three years of service were allowed to divest their pre-2007 Unisys Stock Fund balance as follows: beginning January 1, 2007, 33% of the shares owned prior to 2007; January 1, 2008, 66% of the shares owned prior to 2007; and January 1, 2009, 100% of the shares owned prior to 2007.

Information about the net assets and the significant components of the changes in net assets relating to the predominantly nonparticipant-directed investments is as follows:

	December 31	
	2009	2008

5. TAX STATUS OF THE PLAN

The Plan has received a determination letter from the Internal Revenue Service dated September 25, 2002, stating that the Plan is qualified under Section 401(a) of the Code and therefore, the related trust is exempt from taxation. Subsequent to this determination by the Internal Revenue Service, the Plan was amended and restated.

Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits. Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements.

7. RELATED-PARTY TRANSACTIONS

Certain Plan investments are shares of registered investment companies managed by Fidelity Management Trust Company, the Trustee. The Plan also holds shares of common stock of the Company. At December 31, 2009, the Plan held 61,172 and 2,751,463 shares of Unisys Common Stock in the Unisys Common Stock Fund and Unisys Stock Fund, respectively. At December 31, 2008, the Plan held 68,509 and 3,363,622 shares of Unisys Common Stock in the Unisys Common Stock Fund and Unisys Stock Fund, respectively. These transactions qualify as party-in-interest transactions and are exempt from the prohibited transaction rules.

8. DIFFERENCES BETWEEN FINANCIAL STATEMENTS AND FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31	
	2009	2008

	(In Thousands)	
Net assets available for benefits per the financial statements	\$1,846,542	\$1,557,281
Adjustment to fair value from contract value for fully benefit-responsive investment contracts	491	(6,875)

Net assets available for benefits per the Form 5500	\$1,847,033	\$1,550,406
	=====	

The following is a reconciliation of investment income for the year ended December 31, 2009, per the financial statements to the Form 5500 (in thousands):

Net investment income per the financial statements	\$437,064
Adjustment to fair value from contract value for fully benefit-responsive investment contracts	491
Reversal of prior year adjustment to fair value from contract value for fully benefit-responsive investment contracts	6,875

Investment income per the Form 5500	\$444,430
	=====

9. SUBSEQUENT EVENTS EVALUATION

Management has evaluated the need for disclosure and/or adjustments resulting from subsequent events through the date these financial statements were issued. The evaluation determined that there were no subsequent events that necessitated disclosure and/or adjustments.
