

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2025

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____.

Commission file number 1-8729

UNISYS CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

(State or other jurisdiction of
incorporation or organization)

38-0387840

(I.R.S. Employer
Identification No.)

801 Lakeview Drive, Suite 100

Blue Bell, Pennsylvania 19422

(Address of principal executive offices and zip code)

(215) 986-4011

(Registrant's telephone number, including area code)

N/A

(Former name or former address, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$.01	UIS	New York Stock Exchange

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares of Unisys Common Stock, par value \$.01, outstanding as of September 30, 2025: 71,306,106

INFORMATION CONCERNING FORWARD-LOOKING STATEMENTS

Certain statements contained in this report, including, without limitation, statements as to management expectations, assumptions and beliefs presented in Part I, Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” Part I, Item 3. “Quantitative and Qualitative Disclosures About Market Risk,” Part II, Item 1. “Legal Proceedings” and in the notes to the financial statements are forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Exchange Act of 1934, as amended, and the Private Securities Litigation Reform Act of 1995. Words such as “anticipates,” “estimates,” “expects,” “projects,” “may,” “will,” “intends,” “plans,” “believes,” “should” and similar expressions may identify forward-looking statements and such forward-looking statements are made based upon management’s current expectations, assumptions and beliefs as of this date concerning future developments and their potential effect on us. There can be no assurance that future developments will be in accordance with management’s expectations, assumptions or beliefs, or that the effect of future developments on us will be those anticipated by management. Because actual results may differ materially from those expressed or implied by these forward-looking statements, we caution readers not to place undue reliance on these statements. Any forward-looking statement speaks only as of the date on which that statement is made. The company assumes no obligation to update any forward-looking statement to reflect events or circumstances that occur after the date on which the statement is made, except as required by applicable law.

The factors that could cause actual results to differ materially from our expectations, assumptions and beliefs include, but are not limited to, those discussed in Item 1A. Risk Factors of our Annual Report on Form 10-K for the fiscal year ended December 31, 2024, as summarized below, our ability to:

Business and Operating

- maintain our installed base and sell new solutions and related services;
- grow revenue, expand profit margin and generate sufficient cash flows in our businesses;
- manage cyber incidents, security incidents and breaches and other disruptions in our IT systems;
- adapt to the adverse effects of volatile, negative or uncertain economic, geopolitical or political conditions as well as acts of war, terrorism, natural disasters or the widespread outbreak of infectious diseases;
- effectively anticipate and respond to rapid technological innovation, such as artificial intelligence among others, in our industry;
- work with government and public sector clients and additional risks inherent in the government contracting and public sector environment;
- manage the impacts of new or increased tariffs;
- meet our underfunded defined benefit pension plan obligations;
- maintain our credit rating or access financing markets;
- align employees and their skills with global client demand and retain and develop employees and management with strong leadership skills;
- respond to the potential adverse effects of aggressive competition;
- achieve expected profitability or expected level of revenue from our commercial contracts;
- manage the performance and capabilities of third parties with whom we have commercial relationships;
- protect or enforce our intellectual property rights and defend against infringement claims;
- manage the business and financial risk in the completion of acquisitions or dispositions;

Legal and Regulatory

- comply with global legal and regulatory requirements;
- meet sustainability expectations, standards, and goals, or comply with sustainability regulations or laws;
- manage exposure to legal proceedings, investigations and environmental matters;
- maintain an effective system of internal controls over financial reporting and disclosure controls and procedures;

Accounting

- mitigate a decrease in the value of our assets and an impairment of goodwill or intangible assets, including an impairment during the third quarter of 2025; and
- use our net operating loss carryforwards and certain other tax attributes, which may be limited.

Other factors discussed in this report, although not listed here, also could materially affect our future results.

UNISYS CORPORATION

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

(Dollars in millions, except share and per share amounts)

Note 1 - Basis of Presentation

The unaudited consolidated financial statements included in this Quarterly Report on Form 10-Q have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission (SEC). These rules and regulations permit some of the information and footnote disclosures normally included in financial statements, prepared in accordance with generally accepted accounting principles in the United States of America (GAAP), to be condensed or omitted. In management's opinion, the unaudited consolidated financial statements contain all adjustments that are of a normal recurring nature, necessary for a fair presentation of the results of operations and financial position of the company for the interim periods presented. These adjustments consist only of normal recurring accruals except as disclosed herein. Because of seasonal and other factors, results for interim periods are not necessarily indicative of the results to be expected for the full year.

These unaudited consolidated financial statements should be read in conjunction with the audited consolidated financial statements for the fiscal year ended December 31, 2024 and the notes thereto included in the company's Annual Report on Form 10-K, filed with the SEC.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions about future events. These estimates and assumptions affect the amounts of assets and liabilities reported, disclosures about contingent assets and liabilities and the reported amounts of revenue and expenses. Such estimates include the valuation of estimated credit losses, contract assets, operating lease right-of-use assets, capitalized contract costs assets, marketable software, goodwill, purchased intangibles and other long-lived assets, legal and environmental contingencies, assumptions used in the calculation for systems integration projects, income taxes and retirement and other post-employment benefits, among others. These estimates and assumptions are based on management's best estimates and judgment. Management evaluates its estimates and assumptions on an ongoing basis using historical experience and other factors, including the current economic environment, which management believes to be reasonable under the circumstances. Management adjusts such estimates and assumptions when facts and circumstances dictate. As future events and their effects cannot be determined with precision, actual results could differ materially from these estimates. Any changes in those estimates resulting from changes in the economic environment such as inflation, tariffs, trade policy, fluctuation in interest rates and foreign exchange rates and conflicts, wars and other events of geopolitical significance, will be reflected in the financial statements in future periods.

The company's accounting policies are set forth in detail in Note 1 of the Notes to Consolidated Financial Statements in the company's Annual Report on Form 10-K for the year ended December 31, 2024 filed with the SEC. Such Annual Report also contains a discussion of the company's critical accounting policies and estimates. The company believes that these critical accounting policies and estimates affect its more significant estimates and judgments used in the preparation of the company's consolidated financial statements.

Reclassifications

Certain prior period amounts in the consolidated financial statements and accompanying notes have been reclassified to conform to the current period presentation.

Note 2 - Accounting Standards

Accounting Pronouncements Adopted

Effective for the company's fiscal year ended December 31, 2024 and interim periods thereafter, the company adopted Accounting Standards Update (ASU) No. 2023-07, *Segment Reporting (Topic 280) - Improvements to Reportable Segment Disclosures* (ASU 2023-07), issued by the Financial Accounting Standards Board (FASB), which enhances reportable segment disclosure requirements including disclosures about significant segment expenses on an annual and interim basis. The adoption of ASU 2023-07 did not have a material impact to the company's consolidated financial statements. The required interim and annual disclosures were applied to the presentation of the company's reportable segments, see Note 15, Segment Information. Prior period reportable segment disclosures have been reclassified to be comparable to the current year presentation.

Accounting Pronouncements Not Yet Adopted

In December 2023, the FASB issued ASU No. 2023-09, *Income Taxes (Topic 740) - Improvements to Income Tax Disclosures* (ASU 2023-09), which enhances disclosures relating to the rate reconciliation and requires income taxes paid disclosures disaggregated by jurisdiction among other amendments. This update is effective for annual periods beginning after December

15, 2024, with early adoption permitted and should be applied on a prospective basis with a retrospective application permitted. ASU 2023-09 is not expected to have a material effect on the company's consolidated financial statements.

In November 2024, the FASB issued ASU No. 2024-03, *Income Statement - Reporting Comprehensive Income - Expense Disaggregation Disclosures* (ASU 2024-03) requiring additional disclosures about certain costs and expenses in the notes to the financial statements on an annual and interim basis. This update is effective for fiscal years beginning after December 15, 2026, and interim periods within fiscal years beginning after December 15, 2027, with early adoption permitted on either a prospective or retrospective basis. ASU 2024-03 is not expected to have a material effect on the company's consolidated financial statements.

In September 2025, the FASB issued ASU No. 2025-06, *Intangibles - Goodwill and Other - Internal-Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software* (ASU 2025-06), which simplifies the capitalization guidance for internal-use software costs by removing all references to software development project stages. ASU 2025-06 is effective for annual periods beginning after December 15, 2027, and interim periods within those annual reporting periods, with early adoption permitted on either a prospective, or retrospective or a modified transition approach. The company is currently evaluating the impact of the standard on its consolidated financial statements.

Note 3 - Pension and Postretirement Benefits

Net periodic pension expense (income) is presented below:

Service cost ⁽ⁱ⁾	\$ 1.1	\$ —	\$ 1.1	\$ 1.0	\$ —	\$ 1.0
Interest cost	140.2	84.4	55.8	137.7	86.9	50.8
Expected return on plan assets	(152.8)	(87.2)	(65.6)	(159.8)	(94.0)	(65.8)
Amortization of prior service benefit	(3.4)	(1.9)	(1.5)	(3.5)	(1.9)	(1.6)
Recognized net actuarial loss	73.6	54.8	18.8	63.8	48.2	15.6
Settlement losses ⁽ⁱⁱ⁾⁽ⁱⁱⁱ⁾	227.7	227.7	—	132.3	132.3	—
Net periodic pension expense	\$ 286.4	\$ 277.8	\$ 8.6	\$ 171.5	\$ 171.5	\$ —

⁽ⁱ⁾ Service cost is reported in selling, general and administrative expense. All other components of net periodic pension expense are reported in other (expense), net in the consolidated statements of income (loss).

⁽ⁱⁱ⁾ In September 2025, the company purchased a group annuity contract, with plan assets, for approximately \$316 million to transfer projected benefit obligations related to approximately 3,150 retirees of one of the company's U.S. defined benefit pension plans. This action resulted in a pre-tax settlement loss of \$227.7 million for both the three and nine months ended September 30, 2025.

⁽ⁱⁱⁱ⁾ In March 2024, the company purchased a group annuity contract, with plan assets, for approximately \$195 million to transfer projected benefit obligations related to approximately 3,800 retirees of one of the company's U.S. defined benefit pension plans. This action resulted in a pre-tax settlement loss of \$132.3 million for the nine months ended September 30, 2024.

During the nine months ended September 30, 2025, the company made cash contributions of \$317.2 million to its global defined benefit pension plans including a discretionary contribution of \$250 million to its U.S. defined benefit pension plans. The discretionary contribution was funded in the second quarter of 2025 with approximately \$200 million from the net proceeds of the 10.625% Senior Secured Notes due 2031, and \$50 million from cash on hand. See Note 11 for additional details on the issuance and use of the net proceeds of the 10.625% Senior Secured Notes due 2031.

For the remainder of 2025, the company expects to make cash contributions of approximately \$24 million primarily to its U.S. defined benefit pension plans. This will result in total expected cash contributions for 2025 of approximately \$342 million to the company's global defined benefit pension plans, including approximately \$309 million to the company's U.S. defined benefit pension plans and approximately \$33 million primarily to the company's international defined benefit pension plans.

During the nine months ended September 30, 2024, the company made cash contributions of \$17.6 million primarily to its international defined benefit pension plans. In 2024, the company made cash contributions of \$21.9 million primarily to its international defined benefit pension plans.

At the end of each year, the company estimates its future cash contributions to its global defined benefit pension plans based on year-end pension data, assumptions and agreements. Any material deterioration in the value of the company's global defined benefit pension plan assets, as well as changes in pension legislation, volatility in the capital markets, discount rate changes, asset return changes, or changes in economic or demographic trends, could require the company to make cash contributions in different amounts and on a different schedule than previously estimated.

Net periodic postretirement benefit expense (income) is presented below:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Service cost ⁽¹⁾	\$ —	\$ —	\$ 0.1	\$ 0.1
Interest cost	0.6	0.6	1.8	1.8
Expected return on assets	—	—	(0.1)	(0.1)
Recognized net actuarial gain	(0.5)	(0.8)	(1.6)	(2.3)
Amortization of prior service benefit	0.1	0.1	0.2	0.1
Net periodic postretirement benefit expense (income)	\$ 0.2	\$ (0.1)	\$ 0.4	\$ (0.4)

⁽¹⁾ Service cost is reported in selling, general and administrative expense. All other components of net periodic postretirement benefit expense (income) are reported in other (expense), net in the consolidated statements of income (loss).

The company expects to make cash contributions of \$3 million to its postretirement benefit plan in 2025. In 2024, the company made cash contributions of \$5.2 million to its postretirement benefit plan. For the nine months ended September 30, 2025 and 2024, the company made cash contributions of \$1.0 million and \$3.4 million, respectively.

Note 4 - Stock Compensation

Under stockholder approved stock-based plans, stock options, stock appreciation rights, restricted stock and restricted stock units (RSUs) may be granted to officers, directors and other key employees.

As of September 30, 2025, the company has granted restricted stock and RSUs under these plans. The company recognizes compensation cost, net of a forfeiture rate, in selling, general and administrative expense, and recognizes compensation cost only for those awards expected to vest. The company estimates the forfeiture rate based on its historical experience and its expectations about future forfeitures.

During the nine months ended September 30, 2025 and 2024, the company recorded \$12.2 million and \$16.2 million of share-based restricted stock and RSU compensation expense, respectively.

Restricted stock and RSU awards may contain time-based units, performance-based units, total shareholder return market-based units, or a combination of these units. Each performance-based and market-based unit will vest into zero to two shares depending on the degree to which the performance or market conditions are met. Compensation expense for performance-based awards is recognized as expense ratably for each installment from the date of grant until the date the restrictions lapse and is based on the fair market value at the date of grant and the probability of achievement of the specific performance-related goals. Compensation expense for market-related awards is recognized as expense ratably over the measurement period, regardless of the actual level of achievement, provided the service requirement is met. RSU grants for the company's directors vest upon award and compensation expense for such awards is recognized upon grant.

A summary of restricted stock and RSU activity for the nine months ended September 30, 2025 follows (shares in thousands):

	Restricted Stock and RSU	Weighted- Average Grant-Date Fair Value
Outstanding at December 31, 2024	5,705	\$ 6.26
Granted ⁽ⁱ⁾	3,810	4.47
Vested	(2,441)	6.41
Forfeited and expired	(460)	5.51
Outstanding at September 30, 2025	<u>6,614</u>	<u>4.78</u>

⁽ⁱ⁾ Awards granted during the nine months ended September 30, 2025 were time-based conditions awards.

The aggregate weighted-average grant-date fair value of restricted stock and RSUs granted during the nine months ended September 30, 2025 and 2024 was \$16.1 million and \$19.3 million, respectively. The fair value of awards with time and performance conditions is determined based on the trading price of the company's common shares on the date of grant. The fair value of awards with market conditions is estimated using a Monte Carlo simulation.

As of September 30, 2025, there was \$16.2 million of total unrecognized compensation cost related to outstanding restricted stock and RSUs granted under the company's plans. That cost is expected to be recognized over a weighted-average period of 2.0 years. The aggregate weighted-average grant-date fair value of restricted stock and RSUs vested during the nine months ended September 30, 2025 and 2024 was \$15.7 million and \$13.2 million, respectively.

Common stock issued upon the lapse of restrictions on restricted stock and RSUs are newly issued shares. In light of its tax position, the company is currently not recognizing any tax benefits from the issuance of stock upon lapse of restrictions on restricted stock and RSUs.

Note 5 - Other (expense), net

Other (expense), net is comprised of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Pension and postretirement expense ⁽ⁱ⁾	\$ (242.5)	\$ (11.7)	\$ (285.6)	\$ (170.0)
Loss on debt extinguishment	(0.2)	—	(7.0)	—
Foreign exchange gains (losses) ⁽ⁱⁱ⁾	(3.7)	2.1	(1.4)	(10.5)
Interest income ⁽ⁱⁱⁱ⁾	4.7	5.5	16.0	17.3
Other, net ^(iv)	0.5	(4.1)	(2.2)	3.5
Total other (expense), net	<u>\$ (241.2)</u>	<u>\$ (8.2)</u>	<u>\$ (280.2)</u>	<u>\$ (159.7)</u>

⁽ⁱ⁾ Pension and postretirement expense includes \$227.7 million of a U.S. pension settlement loss for both the three and nine months ended September 30, 2025 and \$132.3 million of a U.S. pension settlement loss for the nine months ended September 30, 2024. See Note 3.

⁽ⁱⁱ⁾ Foreign exchange gains (losses) include gains (losses) from remeasuring cash, receivables, payables and intercompany balances denominated in foreign currencies, as well as gains (losses) on foreign exchange forward contracts. Additionally, these amounts include gains (losses) related to the substantial completion of liquidation of certain foreign subsidiaries. In the third quarter of 2025, the company ceased its use of foreign currency forward contracts. See Note 9 for details on the company's foreign exchange forward contracts.

⁽ⁱⁱⁱ⁾ Interest income relates primarily to interest earned from cash and short-term investments.

^(iv) Other, net generally consists of environmental costs related to previously disposed businesses and other miscellaneous items.

Note 6 - Income Taxes

For the three and nine months ended September 30, 2025, the provision for income taxes was \$16.3 million and \$46.9 million, respectively, primarily driven by the geographic distribution of income. For the three and nine months ended September 30, 2025, the effective tax rate was (5.6)% and (15.0)%, respectively, primarily driven by non-creditable withholding taxes in the U.S., jurisdictions with no valuation allowance that are subject to tax, and U.S. operating losses with no tax benefit as the deferred tax assets are subject to a full valuation allowance.

For the three and nine months ended September 30, 2024, the provision for income taxes was \$53.3 million and \$89.1 million, respectively, primarily driven by a provision of \$29.0 million established for certain foreign subsidiaries for which the company is no longer asserting indefinite reinvestment of earnings and the geographic distribution of income. For the three and nine months ended September 30, 2024, the effective tax rate was (619.8)% and (66.2)%, respectively, primarily driven by the change in the company's indefinite reinvestment assertion of the earnings in certain foreign subsidiaries, non-creditable withholding taxes in the U.S., jurisdictions with no valuation allowance that are subject to tax, and U.S. operating losses with no tax benefit as the deferred tax assets are subject to a full valuation allowance. The effective tax rate for the three and nine months ended September 30, 2024 was also impacted by an additional valuation allowance of \$7.4 million in United Kingdom.

Accounting rules governing income taxes require that deferred tax assets and liabilities be recognized using enacted tax rates for the effect of temporary differences between the book and tax bases of recorded assets and liabilities. These rules also require that deferred tax assets be reduced by a valuation allowance if it is more likely than not that some portion or the entire deferred tax asset will not be realized.

The company evaluates the realizability of its deferred tax assets by assessing its valuation allowance and by adjusting such amount, if necessary. The realization of the company's net deferred tax assets as of September 30, 2025, is primarily dependent on the ability to generate sustained taxable income in various jurisdictions. Judgment is required to estimate forecasted future taxable income, which may be impacted by future business developments, actual results, strategic operational and tax initiatives, legislative, and other economic factors and developments. It is at least reasonably possible that the company's judgment about the need for, and level of, existing valuation allowances could change in the near term based on changes in objective evidence such as further sustained income or loss in certain jurisdictions, as well as the other factors discussed above, primarily in certain jurisdictions outside of the United States. As such, the company will continue to monitor income levels and mix among jurisdictions, potential changes to the company's operating and tax model, and other legislative or global developments in its determination. It is reasonably possible that such changes could result in a material impact to the company's valuation allowance within the next 12 months. Any increase or decrease in the valuation allowance would result in additional or lower income tax expense in that period and could have a significant impact on that period's earnings.

A full valuation allowance is currently maintained for all U.S. and certain foreign deferred tax assets in excess of deferred tax liabilities. The company will record a tax provision or benefit for those international subsidiaries that do not have a full valuation allowance against their net deferred tax assets. Any profit or loss recorded for the company's U.S. operations will have no provision or benefit associated with it due to such valuation allowance, except with respect to withholding taxes not creditable against future taxable income. As a result, the company's provision or benefit for taxes may vary significantly depending on the geographic distribution of income.

Under U.S. tax law, distributions from foreign subsidiaries to U.S. stockholders are generally exempt from taxation. Consequently, the deferred income tax liability on undistributed earnings is generally limited to any foreign withholding or other foreign taxes that will be imposed on such distributions. The company is no longer asserting indefinite reinvestment of earnings of certain foreign subsidiaries. At September 30, 2025 and December 31, 2024, the related deferred tax liability was \$30.6 million and \$27.7 million, respectively, which is included in other long-term liabilities on the company's consolidated balance sheets.

A corporation's ability to deduct its federal net operating loss (NOL) carryforwards and utilize certain other available tax attributes can be substantially constrained under the general annual limitation rules of Section 382 of the U.S. Internal Revenue Code (Section 382) if it undergoes an "ownership change" as defined in Section 382 (generally where cumulative stock ownership changes among material stockholders exceed 50 percent during a rolling three-year period). Similar rules may apply under state tax laws. A future tax "ownership change" pursuant to Section 382 or future changes in tax laws that impose tax attribute utilization limitations may severely limit or effectively eliminate the company's ability to utilize its NOL carryforwards and other tax attributes.

On July 4, 2025, the One Big Beautiful Bill Act (OBBBA) was signed into law in the U.S. The OBBBA includes significant provisions, such as the permanent extension of certain expiring provisions of the Tax Cuts and Jobs Act of 2017, modifications to the international tax framework and the restoration of favorable tax treatment for certain business provisions. The legislation has multiple effective dates, with certain provisions effective in 2025 and others implemented through 2027. The company does not anticipate any material impact to our financial statements, due to the valuation allowance in the U.S., and no material

permanent tax differences are expected. The company continues to assess the impact of these new provisions on the company's consolidated financial statements for future reporting periods.

Note 7 - Loss Per Share

The following table provides the calculations for the company's earnings (loss) per common share attributable to Unisys Corporation (shares in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Basic loss per common share computation:				
Net loss attributable to Unisys Corporation	\$ (308.9)	\$ (61.9)	\$ (358.5)	\$ (223.4)
Weighted average shares	71,301	69,357	70,889	69,112
Basic loss per common share	\$ (4.33)	\$ (0.89)	\$ (5.06)	\$ (3.23)
Diluted loss per common share computation:				
Net loss attributable to Unisys Corporation	\$ (308.9)	\$ (61.9)	\$ (358.5)	\$ (223.4)
Weighted average shares	71,301	69,357	70,889	69,112
Plus incremental shares from assumed vesting of employee stock plans	—	—	—	—
Adjusted weighted average shares	71,301	69,357	70,889	69,112
Diluted loss per common share	\$ (4.33)	\$ (0.89)	\$ (5.06)	\$ (3.23)
Anti-dilutive restricted stock units ⁽ⁱ⁾	2,362	1,976	2,711	1,960

⁽ⁱ⁾ Amounts represent shares excluded from the computation of diluted loss per share, as their effect, if included, would have been anti-dilutive for the periods presented.

Note 8 - Revenue

Contract Assets and Deferred Revenue

Contract assets represent rights to consideration in exchange for goods or services transferred to a customer when that right is conditional on something other than the passage of time. Deferred revenue represents contract liabilities.

Net contract assets (liabilities) are as follows:

	September 30, 2025	December 31, 2024
Contract assets - current	\$ 15.3	\$ 16.0
Contract assets - long-term ⁽ⁱ⁾	4.7	6.0
Deferred revenue - current	(185.3)	(210.4)
Deferred revenue - long-term	(93.4)	(108.8)

⁽ⁱ⁾ Reported in other long-term assets on the company's consolidated balance sheets.

Significant changes in the above contract liability balances were as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Revenue recognized that was included in deferred revenue at the beginning of the period	\$ 44.8	\$ 33.7	\$ 174.8	\$ 171.5

Capitalized Contract Costs

The company's capitalized contract costs, net include the following:

	September 30, 2025	December 31, 2024
Deferred commissions, net	\$ 7.5	\$ 7.2
Costs to fulfill a contract, net	16.8	12.9
Other capitalized assets, net	45.1	11.1
Total capitalized contract costs, net	<u>\$ 69.4</u>	<u>\$ 31.2</u>

Deferred commissions, net represent incremental direct costs of obtaining a contract, which are deferred and amortized ratably over the initial contract life. These costs are reported in selling and administrative expense in the company's consolidated statements of income (loss).

Client contract costs are generally expensed as incurred. However, certain costs incurred upon initiation of a client contract (costs to fulfill a contract), principally initial client setup, are capitalized and expensed over the initial contract life. These costs are amortized over the initial contract life and reported in cost of revenue in the company's consolidated statements of income (loss).

The remaining balance of capitalized contract costs, net is comprised of fixed assets and software used in connection with certain client contracts. At September 30, 2025, other capitalized assets, net includes \$35.7 million of finance lease right-of-use assets related to a client contract. These costs are capitalized and depreciated over the shorter of the initial contract life or in accordance with the company's fixed asset policy.

For the three months ended September 30, 2025 and 2024, amortization expense related to capitalized contract costs assets, net was \$3.9 million and \$5.4 million, respectively. For the nine months ended September 30, 2025 and 2024, amortization expense related to capitalized contract costs assets, net was \$11.4 million and \$18.0 million, respectively.

Remaining Performance Obligations

Remaining performance obligations represent the transaction price of firm orders for which work has not been performed and excludes (i) contracts with an original expected length of one year or less and (ii) contracts for which the company recognizes revenue at the amount to which it has the right to invoice for services performed. At September 30, 2025, the company had approximately \$0.9 billion of remaining performance obligations of which approximately 11% is estimated to be recognized as revenue by the end of 2025, 34% by the end of 2026, 28% by the end of 2027, 19% by the end of 2028 and 8% thereafter.

Note 9 - Financial Instruments and Fair Value Measurements

Due to its foreign operations, the company is exposed to the effects of foreign currency exchange rate fluctuations on the U.S. dollar, principally related to intercompany account balances. In the third quarter of 2025, the company ceased its use of foreign currency forward contracts.

At September 30, 2025, there is no remaining notional amount of these contracts and at December 31, 2024, the notional amount was \$501.3 million. These foreign exchange forward contracts, generally had maturities of three months or less, and were not designated as hedging instruments. The fair value of these forward contracts was based on quoted prices for similar but not identical financial instruments; as such, the inputs were considered Level 2 inputs.

The following table summarizes the fair value of the company's foreign exchange forward contracts.

	December 31, 2024
Balance Sheet Location	
Prepaid expenses and other current assets	\$ 0.1
Other accrued liabilities	9.5
Total fair value	<u>\$ (9.4)</u>

The following table summarizes the location and amount of gains (losses) recognized on foreign exchange forward contracts.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Statement of Income Location				
Other (expense), net	\$ (7.5)	\$ 16.6	\$ 46.4	\$ (0.4)

Financial assets with carrying values approximating fair value include cash and cash equivalents and accounts receivable. Financial liabilities with carrying values approximating fair value include accounts payable and other liabilities. The carrying amounts of these financial assets and liabilities approximate fair value due to their short maturities. Such financial instruments are not included in the following table that provides information about the estimated fair values of other financial instruments that are not measured at fair value in the consolidated balance sheets as of September 30, 2025 and December 31, 2024.

	September 30, 2025		December 31, 2024	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Long-term debt:				
10.625% senior secured notes due January 15, 2031	\$ 686.6	\$ 745.1	\$ —	\$ —
6.875% senior secured notes due November 1, 2027	\$ —	\$ —	\$ 481.6	\$ 471.3

Long-term debt is carried at amortized cost and its estimated fair value is based on market prices classified as Level 2 in the fair value hierarchy.

Note 10 - Goodwill and Intangible Assets

Goodwill

In January 2025, the company changed its organizational structure to better align its portfolio of solutions to more effectively address evolving client needs and take further advantage of the synergies across the company's reportable segments. See Note 15 for additional information on the changes to the company's operating and reportable segments. These changes did not change the company's reporting units but were deemed a triggering event, resulting in an interim goodwill analysis on the reporting units impacted as of immediately before and immediately after the change. There were no impairment charges resulting from this analysis.

The net carrying value of goodwill by reporting unit was as follows:

	Total	DWS	CA&I	ECS
Balance at December 31, 2024 ⁽ⁱ⁾	\$ 247.9	\$ 101.3	\$ 54.5	\$ 92.1
Goodwill impairment	(55.0)	(55.0)	—	—
Translation adjustments	0.9	0.9	—	—
Balance at September 30, 2025	\$ 193.8	\$ 47.2	\$ 54.5	\$ 92.1

⁽ⁱ⁾ Cloud, Applications & Infrastructure Solutions (CA&I) and Enterprise Computing Solutions (ECS) reporting units' goodwill balances were reclassified as of December 31, 2024 to conform with the current period reporting units' presentation. There was no change to the Digital Workplace Solutions (DWS) goodwill amount. See Note 15 for additional information on the changes to the company's operating and reportable segments.

Goodwill is presented net of accumulated impairment losses of \$94.1 million and \$39.1 million as of September 30, 2025 and December 31, 2024, respectively, attributable to the DWS reporting unit. For the three and nine months ended September 30, 2025, the company recognized an impairment loss of \$55.0 million on goodwill associated with the DWS reporting unit. For the three and nine months ended September 30, 2024, the company recognized an impairment loss of \$39.1 million on goodwill associated with the DWS reporting unit.

Goodwill Impairment

The company reviews goodwill for impairment annually, as well as whenever there are events or changes in circumstances (triggering events), which indicate that the carrying amount may not be recoverable. The company continuously monitors its revenue, gross profit and operating profit growth and evaluates other relevant events and circumstances including changes to U.S. treasury rates and equity risk premiums, tax rates, recent market valuations from transactions by comparable companies, volatility in the company's market capitalization, and general industry, market and macro-economic conditions, that could unfavorably impact the recoverability of the goodwill carrying value.

During the third quarter of 2025, the company reviewed its estimated long term expected future cash flows for the DWS reporting unit as operating results were below estimated forecast due to the impact of the slower pace of client signings driven by industry and macro-economic dynamics. Based on this, the company concluded that a triggering event existed and conducted a quantitative goodwill assessment for its reporting unit as of September 30, 2025.

The fair value of the DWS reporting unit was estimated using both the income approach and the market approach using a weighted methodology to determine its fair value.

The income approach is a forward-looking approach to estimating fair value and relies primarily on internal forecasts. Within the income approach, the method used is the discounted cash flow method, which is considered a Level 3 nonrecurring fair value measurement. The company starts with a forecast of all expected net cash flows associated with the reporting unit, which includes the application of a terminal value, and then applies a reporting unit-specific discount rate to arrive at a net present value amount. Significant estimates and assumptions inherent in this approach include the amount and timing of projected net cash flows, long-term growth rate and the discount rate. Cash flow projections are based on management's estimates of economic and market conditions, which drive key assumptions of revenue growth rates and operating margins. The discount rate, in turn, is based on various market factors and specific risk characteristics of each reporting unit.

The market approach relies primarily on external information for estimating the fair value. Significant estimates and assumptions inherent in this approach include the selection of appropriate guideline companies and the selected performance metric used in this approach.

Based on the goodwill impairment analysis performed during the third quarter of 2025, the carrying value of the DWS reporting unit exceeded its respective fair value, resulting in the recognition of a goodwill impairment charge of \$55.0 million for the three and nine months ended September 30, 2025.

Based on the annual impairment analysis performed during the fourth quarter of 2024, the CA&I reporting unit had a 10% excess of fair value over book value, including goodwill.

It is possible that future changes in such circumstances or in the inputs and assumptions used in estimating the fair value of the reporting units could require the company to record an additional non-cash impairment charge.

Intangible Assets, Net

Intangible assets, net at September 30, 2025, consists of the following:

	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Technology	\$ 10.0	\$ 10.0	\$ —
Customer relationships ⁽ⁱ⁾	54.2	22.0	32.2
Marketing ⁽ⁱ⁾	1.3	1.2	0.1
Total	<u>\$ 65.5</u>	<u>\$ 33.2</u>	<u>\$ 32.3</u>

⁽ⁱ⁾ Amortization expense is included within selling, general and administrative expense in the consolidated statements of income (loss).

For the three months ended September 30, 2025 and 2024, amortization expense was \$1.1 million and \$1.5 million, respectively. For the nine months ended September 30, 2025 and 2024, amortization expense was \$3.2 million and \$6.1 million, respectively.

The future amortization relating to acquired intangible assets at September 30, 2025, was estimated as follows:

	Future Amortization Expense
Remainder of 2025	\$ 1.1
2026	4.0
2027	4.0
2028	4.0
2029	4.0
Thereafter	15.2
Total	\$ 32.3

Note 11 - Debt

Long-term debt is comprised of the following:

	September 30, 2025	December 31, 2024
10.625% senior secured notes due January 15, 2031 (Face value of \$700.0 million less unamortized issuance costs of \$13.5 million at September 30, 2025) ⁽ⁱ⁾	\$ 686.6	\$ —
6.875% senior secured notes due November 1, 2027 (Face value of \$485.0 million less unamortized issuance costs of \$3.4 million at December 31, 2024) ⁽ⁱ⁾	—	481.6
Finance leases	40.0	2.8
Other debt	8.3	8.8
Total	734.9	493.2
Less – current maturities	11.7	5.0
Total long-term debt	\$ 723.2	\$ 488.2

⁽ⁱ⁾ See Note 9 for the fair value of the notes.

Senior Secured Notes due 2031

In June 2025, the company completed a private placement offering of \$700.0 million aggregate principal amount of its 10.625% Senior Secured Notes due 2031 (the 2031 Notes). The 2031 Notes will pay interest semiannually on January 15 and July 15, commencing on January 15, 2026, and will mature on January 15, 2031, unless earlier repurchased or redeemed by the company. The 2031 Notes are fully and unconditionally guaranteed on a senior secured basis by Unisys Holding Corporation, Unisys AP Investment Company I and Unisys NPL, Inc., each a Delaware corporation that is directly or indirectly wholly owned by the company (the Subsidiary Guarantors). The net proceeds from the issuance of the 2031 Notes, together with cash on hand, were used to finance the company's tender offer to purchase for cash any and all of its outstanding 6.875% Senior Secured Notes due November 1, 2027 (the 2027 Notes) and solicitation of consents from holders of the 2027 Notes to amendments to the indenture governing the 2027 Notes (the Tender Offer) and the payment of related premiums, fees and expenses. The company also used the net proceeds from the issuance of the 2031 Notes to redeem, on or about November 1, 2025, any 2027 Notes that remained outstanding following the Tender Offer, as explained under the Senior Secured Notes due 2027 section below, and to fund, together with cash on hand, a portion of the company's U.S. defined benefit pension plans

deficit and postretirement liabilities. See Note 3 for additional details on the discretionary contribution to the company’s U.S. defined benefit pension plans.

The 2031 Notes and the guarantees by the Subsidiary Guarantors rank equally in right of payment with all of the existing and future senior debt of the company and the Subsidiary Guarantors and senior in right of payment to any future subordinated debt of the company and the Subsidiary Guarantors. The 2031 Notes and the guarantees are structurally subordinated to all existing and future liabilities (including preferred stock, trade payables and pension liabilities) of the subsidiaries of the company that are not Subsidiary Guarantors. The 2031 Notes and the guarantees are secured by liens on substantially all assets of the company and the Subsidiary Guarantors, other than certain excluded assets (the collateral). The liens securing the 2031 Notes on certain Asset Based Lending (ABL) collateral are subordinated to the liens on ABL collateral in favor of the ABL secured parties, subject to certain limitations and permitted liens.

The company may, at its option, redeem some or all of the 2031 Notes at any time on or after January 15, 2028, at a redemption price determined in accordance with the redemption schedule set forth in the indenture relating to the 2031 Notes, plus accrued and unpaid interest, if any.

Prior to January 15, 2028, the company may, at its option, redeem some or all of the 2031 Notes at any time, at a price equal to 100% of the principal amount of the 2031 Notes redeemed plus a “make-whole” premium, plus accrued and unpaid interest, if any. The company may also redeem, at its option, up to 40% of the 2031 Notes at any time prior to January 15, 2028, using the proceeds of certain equity offerings at a redemption price of 110.625% of the principal amount thereof, plus accrued and unpaid interest, if any. On or after January 15, 2028, the company may, on any one or more occasions, redeem all or part of the 2031 Notes at specified redemption premiums, declining to par for any redemptions on or after January 15, 2030. Prior to January 15, 2028, the company may redeem up to 10% of the aggregate principal amount of the 2031 Notes during each calendar year, commencing in 2025, at a purchase price equal to 103% of the principal amount of the 2031 Notes, plus accrued and unpaid interest, if any.

The indenture relating to the 2031 Notes contains covenants that limit the ability of the company and its restricted subsidiaries (as defined therein) to, among other things: (i) incur additional indebtedness and guarantee indebtedness; (ii) pay dividends or make other distributions or repurchase or redeem its capital stock; (iii) prepay, redeem or repurchase certain debt; (iv) make loans and investments (including investments by the company and the Subsidiary Guarantors in subsidiaries that are not guarantors); (v) sell assets; (vi) create or incur liens; (vii) enter into transactions with affiliates; (viii) enter into agreements restricting its subsidiaries’ ability to pay dividends; and (ix) consolidate, merge or sell all or substantially all of its assets. These covenants are subject to several important limitations and exceptions.

If the company experiences certain kinds of changes of control (as defined in the indenture), it must offer to purchase the 2031 Notes at 101% of the principal amount of the 2031 Notes, plus accrued and unpaid interest, if any. In addition, if the company sells assets under certain circumstances, it must apply the proceeds of such sales towards an offer to repurchase the 2031 Notes at a price equal to par plus accrued and unpaid interest, if any.

The indenture also provides for events of default, which, if any of them occur, would permit or require the principal, premium, if any, interest and any other monetary obligations on all the then outstanding 2031 Notes to be due and payable immediately.

Interest expense related to the 2031 Notes is comprised of the following:

	Three Months Ended September 30, 2025	Nine Months Ended September 30, 2025
Contractual interest coupon	\$ 18.6	\$ 19.4
Amortization of issuance costs	0.6	0.6
Total	\$ 19.2	\$ 20.0

Senior Secured Notes due 2027

As of December 31, 2024, the company had \$485.0 million aggregate principal amount outstanding of the 2027 Notes. Interest on the 2027 Notes was payable semi-annually on May 1 and November 1. On June 11, 2025, the company commenced the Tender Offer. The purchase price offered per \$1,000 principal amount of 2027 Notes pursuant to the Tender Offer was \$1,006.25, which included an early tender premium of \$30.00 per \$1,000 principal amount of 2027 Notes. Concurrent with the closing of the issuance of the 2031 Notes, the company paid an aggregate amount of \$488.6 million, including \$3.0 million of early tender premium and \$5.5 million of accrued interest and other expenses through June 27, 2025, to purchase \$480.1 million of aggregate principal amount outstanding of the 2027 Notes tender in the Tender Offer.

On June 27, 2025, the company satisfied and discharged the indenture relating to the 2027 Notes, issued a notice of redemption for its remaining outstanding principal amount, and deposited U.S. government securities with the trustee of the 2027 Notes to

cover the remaining outstanding aggregate principal amount of \$4.9 million, plus accrued but unpaid interest on the 2027 Notes to be redeemed to, but not including, the redemption date.

As a result of the satisfaction and discharge, the indenture relating to the 2027 Notes ceased to be of further effect except as to rights of registration of transfer or exchange of 2027 Notes which survive until all 2027 Notes have been canceled and the rights, protections and immunities of the trustee, as expressly provided for in the indenture relating to the 2027 Notes.

The satisfaction and discharge of the 2027 Notes resulted in a loss on debt extinguishment of \$7.0 million for the nine months ended September 30, 2025, reported in other (expense), net, which included \$4.0 million in unamortized debt issuance costs write-off and other expenses and an early tender premium of \$3.0 million paid to repurchase a portion of the 2027 Notes.

Interest expense related to the 2027 Notes is comprised of the following:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Contractual interest coupon	\$ —	\$ 8.3	\$ 16.3	\$ 25.0
Amortization of issuance costs	—	0.3	0.6	0.9
Total	\$ —	\$ 8.6	\$ 16.9	\$ 25.9

Asset Based Lending (ABL) Credit Facility

Concurrently with the issuance of the 2031 Notes, the company entered into an amendment of the company's secured revolving credit facility (the Amended and Restated ABL Credit Facility) that extended the maturity date from October 2027 to June 2030 and modified certain other terms and covenants. The secured revolving credit facility continues to provide for revolving loans and letters of credit up to an aggregate amount of \$125.0 million (with a limit on letters of credit of \$40.0 million), with an uncommitted accordion feature allowing for the aggregate amount available to be increased up to \$155.0 million upon the satisfaction of certain specified conditions.

Availability under the credit facility is subject to a borrowing base calculated by reference to the company's receivables. At September 30, 2025, the company had no borrowings and \$9.5 million of letters of credit outstanding. Availability under the credit facility was \$90.6 million, net of letters of credit issued.

The Amended and Restated ABL Credit Facility is subject to a springing maturity, under which the Amended and Restated ABL Credit Facility will immediately mature 91 days prior to any date on which contributions to pension funds in the United States in an amount in excess of \$100.0 million are required to be paid unless the company is able to meet certain conditions, including that the company has the liquidity (as defined in the Amended and Restated ABL Credit Facility) to cash settle the amount of such pension payments, as applicable, no default or event of default has occurred under the Amended and Restated ABL Credit Facility, the company's liquidity is above \$130.0 million and the company is in compliance with the then applicable fixed charge coverage ratio on a pro forma basis.

The Amended and Restated ABL Credit Facility is guaranteed by Unisys Holding Corporation, Unisys NPL, Inc. and Unisys AP Investment Company I, each of which is a U.S. corporation that is directly or indirectly owned by the company (the subsidiary guarantors) and any future material domestic subsidiaries. The facility is secured by the assets of the company and the subsidiary guarantors, other than certain excluded assets, under a security agreement entered into by the company and the subsidiary guarantors in favor of Bank of America, N.A., as agent for the lenders under the credit facility.

The company is required to maintain a minimum fixed charge coverage ratio if the availability under the Amended and Restated ABL Credit Facility falls below the greater of 10% of the lenders' commitments under the facility and \$12.5 million.

The Amended and Restated ABL Credit Facility contains customary representations and warranties, including, but not limited to, that there has been no material adverse change in the company's business, properties, operations or financial condition. The Amended and Restated ABL Credit Facility includes restrictions on the ability of the company and its subsidiaries to, among other things, incur other debt or liens, dispose of assets and make acquisitions, loans and investments, repurchase its equity, and prepay other debt. These restrictions are subject to several important limitations and exceptions. Events of default include non-payment, failure to comply with covenants, materially incorrect representations and warranties, change of control and default under other debt aggregating at least \$50.0 million, subject to relevant cure periods, as applicable.

At September 30, 2025, the company has met all covenants and conditions under its various lending and funding agreements. For at least the next 12 months, the company expects to continue to meet these covenants and conditions.

Note 12 - Litigation and Contingencies

The company is involved in a wide range of lawsuits, claims, investigations and proceedings, which arise in the ordinary course of business, including actions with respect to commercial and government contracts, labor and employment, employee benefits, environmental matters, intellectual property and non-income tax matters. Further, given the rapidly evolving external landscape of cybersecurity, privacy and data protection laws, regulations, threat actors and heightened client expectations and demands, the company and its clients have been and will continue to be subject to actions or proceedings in various jurisdictions. These matters can involve a number of different parties, including competitors, clients, current or former employees, government and regulatory agencies, stockholders and representatives of the locations in which the company does business. Many of these matters are also highly complex and may seek recovery on behalf of a class or similarly large number of plaintiffs. It is therefore inherently difficult to predict the size or scope of potential future losses arising from these matters.

The company records a provision for these matters when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated and a gain contingency when the award or recovery is realized or realizable. Significant judgment is required in both the determination of probability and the determination as to whether an exposure is reasonably estimable. Because of uncertainties related to these matters, accruals are based only on the best information available at the time. Any provisions are reviewed at least quarterly and are adjusted to reflect the impact and status of settlements, rulings, advice of counsel and other information and events pertinent to a particular matter. These adjustments could have a material impact on our results of operations and financial position.

The company intends to defend itself vigorously with respect to any legal matters. Based on its experience, the company also believes that the damage amounts claimed against it in the matters disclosed below are not a meaningful indicator of the company's potential liability.

Legal proceedings are inherently unpredictable and unfavorable resolutions have and could occur. Whether any losses, damages or remedies finally determined in any claim, suit, investigation or proceeding could reasonably have a material effect on the company's business, financial condition, results of operations or cash flows will depend on a number of variables, including: the timing and amount of such losses or damages; the structure and type of any such remedies; the significance of the impact any such losses, damages or remedies may have in the company's consolidated financial statements; and the unique facts and circumstances of the particular matter that may give rise to additional factors. Accordingly, it is possible that an adverse outcome from such matters could be material to the company's financial condition, results of operations and cash flows in any particular reporting period.

Notwithstanding that the ultimate results of the lawsuits, claims, investigations and proceedings that have been brought or asserted against the company are not currently determinable, the company believes that at September 30, 2025, it has adequate provisions for any such matters.

The following is a summary of the more significant legal proceedings involving the company.

The company's Brazilian operations, along with those of many other companies doing business in Brazil, are involved in various litigation matters, including numerous governmental assessments related to indirect and other taxes, as well as disputes associated with former employees and contract labor. The tax-related matters pertain to value-added taxes, customs, duties, sales and other non-income-related tax exposures. The labor-related matters include claims related to compensation. The company believes that appropriate accruals have been established for such matters based on information currently available. At September 30, 2025, excluding those matters that have been assessed by management as being remote as to the likelihood of ultimately resulting in a loss, the amount related to unreserved tax-related matters, inclusive of any related interest, is estimated to be approximately \$99 million.

On December 3, 2024, Unisys reached a settlement in the case of Unisys Corp. v. Gilbert, et al. pending in the Eastern District of Pennsylvania. The litigation sought damages from Atos, a competitor, and former employees, alleging theft of Unisys trade secrets and confidential information. This settlement for \$40 million allowed the company to avoid the costs and uncertainties associated with prolonged litigation and reinforces the value of Unisys's intellectual property. The company received payment of \$15 million as of December 31, 2024 and the remaining amount of \$25 million was received during the third quarter of 2025. The company believes that this settlement was in the best interest of its stockholders and resolved the ongoing litigation in a favorable manner.

With respect to the specific legal proceedings and claims described above, except as otherwise noted, either (i) the amount or range of possible losses in excess of amounts accrued, if any, is not reasonably estimable or (ii) the company believes that the amount or range of possible losses in excess of amounts accrued that are estimable would not be material. Nonetheless, the company is unable to predict the outcome from such matters and it is possible that an adverse result could be material to the company's financial conditions, results of operations and cash flows.

Environmental Matters

As of September 30, 2025, the company has an estimated environmental liability for a site that its predecessor company previously operated of approximately \$22 million, of which \$3 million is reported in other accrued liabilities and \$19 million in other long-term liabilities on the company's consolidated balance sheets. The company has an agreement related to this site, which provides for a partial reimbursement of certain costs when all cleanup work has been approved and finalized. As of September 30, 2025, the company expects to recover approximately \$33 million, which is included in other long-term assets on the company's consolidated balance sheets. As the company continues to perform investigation activities and if events and circumstances change, the company may incur future additional costs, which could have a material impact on the company's results of operations, financial condition and cash flows.

Note 13 - Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss is as follows:

	Total	Translation Adjustments	Postretirement Plans
Balance at December 31, 2024	\$ (2,757.2)	\$ (984.7)	\$ (1,772.5)
Other comprehensive income (loss) before reclassifications	63.0	115.6	(52.6)
Amounts reclassified from accumulated other comprehensive loss	270.3	(2.7)	273.0
Current period other comprehensive income	333.3	112.9	220.4
Balance at September 30, 2025	\$ (2,423.9)	\$ (871.8)	\$ (1,552.1)

Amounts reclassified out of accumulated other comprehensive loss are as follows:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
Translation adjustments:				
Adjustment for substantial completion of liquidation of certain foreign subsidiaries ⁽ⁱ⁾	\$ —	\$ (0.7)	\$ (2.7)	\$ 1.0
Pension and postretirement plans ⁽ⁱⁱ⁾ :				
Amortization of prior service benefit	(0.9)	(0.9)	(2.7)	(2.8)
Amortization of actuarial losses	23.9	18.5	70.0	59.9
Settlement losses	208.7	—	208.7	125.5
Total before tax	231.7	16.9	273.3	183.6
Income tax	(1.0)	(0.8)	(3.0)	(2.4)
Total reclassifications for the period	\$ 230.7	\$ 16.1	\$ 270.3	\$ 181.2

⁽ⁱ⁾ Reported in other (expense), net in the consolidated statements of income (loss).

⁽ⁱⁱ⁾ These items are included in net periodic pension and postretirement cost (see Note 3).

Note 14 - Supplemental Cash Flow Information

	Nine Months Ended September 30,	
	2025	2024
Cash paid during the period for:		
Income taxes, net of refunds	\$ 57.2	\$ 40.0
Interest	\$ 22.8	\$ 18.2

The following table provides a reconciliation of cash and cash equivalents and restricted cash reported within the consolidated balance sheets to the total of the amounts shown in the consolidated statements of cash flows.

	September 30, 2025	December 31, 2024
Cash and cash equivalents	\$ 321.9	\$ 376.5
Restricted cash	8.6	14.1
Total cash, cash equivalents and restricted cash shown in the consolidated statements of cash flows	\$ 330.5	\$ 390.6

Cash and cash equivalents subject to contractual restrictions, and are therefore not readily available, are classified as restricted cash. At September 30, 2025, the company maintains cash balances in various operating accounts in excess of federally insured limits. The company monitors this risk by evaluating the creditworthiness of the financial institutions.

Note 15 - Segment Information

In January 2025, the company changed its organizational structure to better align its portfolio of solutions to more effectively address evolving client needs and take further advantage of the synergies across the company's reportable segments. The company's business processing solutions, which were reported within Other, have been integrated into the company's ECS and CA&I reportable segments. Additionally, the company's application development and modernization capabilities, which were reported within ECS, have been operationally centralized within CA&I. These changes did not impact the company's consolidated financial statements as of December 31, 2024. Prior period amounts have been reclassified to be comparable to the current period's presentation.

The company's reportable segments are as follows:

- Digital Workplace Solutions (DWS), which provides workplace solutions featuring intelligent workplace services, proactive experience management and collaboration tools to support business growth;
- Cloud, Applications & Infrastructure Solutions (CA&I), which provides digital transformation in the areas of cloud migration and management, applications and infrastructure transformation and modernization solutions; and
- Enterprise Computing Solutions (ECS), which provides solutions that harness secure, high-intensity enterprise computing and enable digital services through software-defined operating environments.

This segment structure reflects the financial information used by the company's chief operating decision maker (CODM) to make decisions regarding the company's business, including resource allocations and performance assessments, as well as the current operating focus.

The CODM evaluates the performance of the segments based on segment revenue and segment gross profit. The company's CODM regularly reviews cost of revenues by segment and treats it as a significant segment expense. Segment revenue and segment gross profit are exclusive of certain activities and expenses that are not allocated to specific segments and reported in Other as described below. The company does not report assets by reportable segments as this information is not reviewed by the CODM on a regular basis.

Other, as presented in the reconciliation tables below, includes revenue and cost of revenue associated with the company's United Kingdom business process outsourcing consolidated joint venture, which is a non-core business activity. Additionally, Other includes certain expenses within cost of revenue such as cost reduction charges, amortization of purchased intangibles and unusual and nonrecurring items that are not allocated to specific segments. These amounts are combined within other revenue and other gross profit (loss) to arrive at total consolidated revenue and total consolidated gross profit (loss) as reported in the reconciliations below.

The following tables present certain financial information by reportable segments:

	Total Segments	DWS	CA&I	ECS
Three Months Ended September 30, 2025				
Revenue	\$ 438.9	\$ 125.3	\$ 180.4	\$ 133.2
Cost of revenue	321.6	105.0	145.0	71.6
Gross profit	\$ 117.3	\$ 20.3	\$ 35.4	\$ 61.6

Three Months Ended September 30, 2024				
Revenue	\$ 474.3	\$ 130.9	\$ 189.4	\$ 154.0
Cost of revenue	326.4	109.6	152.5	64.3
Gross profit	\$ 147.9	\$ 21.3	\$ 36.9	\$ 89.7

	Total Segments	DWS	CA&I	ECS
Nine Months Ended September 30, 2025				
Revenue	\$ 1,316.3	\$ 382.0	\$ 542.2	\$ 392.1
Cost of revenue	954.1	321.4	433.8	198.9
Gross profit	\$ 362.2	\$ 60.6	\$ 108.4	\$ 193.2

Nine Months Ended September 30, 2024				
Revenue	\$ 1,391.0	\$ 395.3	\$ 571.7	\$ 424.0

Other foreign	227.4	226.3	646.8	660.3
Total	<u>\$ 460.2</u>	<u>\$ 497.0</u>	<u>\$ 1,375.6</u>	<u>\$ 1,463.0</u>

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This management's discussion and analysis of financial condition and results of operations should be read in conjunction with the consolidated financial statements and the related notes included elsewhere in this quarterly report.

Overview

For the three months ended September 30, 2025, the company reported net loss attributable to Unisys Corporation of \$308.9 million, or \$4.33 per diluted share, compared with a loss of \$61.9 million, or \$0.89 per diluted share, for the three months ended September 30, 2024. The net loss for the three months ended September 30, 2025 included a U.S. pension plan settlement loss net of tax of \$227.7 million. Additionally, the net loss for the three months ended September 30, 2025 and 2024 included goodwill impairment charges of \$55.0 million and \$39.1 million, respectively, related to the Digital Workplace Solutions (DWS) reportable segment.

For the nine months ended September 30, 2025, the company reported net loss attributable to Unisys Corporation of \$358.5 million, or \$5.06 per diluted share, compared with a loss of \$223.4 million, or \$3.23 per diluted share, for the nine months ended September 30, 2024. The net loss for the nine months ended September 30, 2025 and 2024 included U.S. pension plan settlement losses net of tax of \$227.7 million and \$132.3 million, respectively, and goodwill impairment charges of \$55.0 million and \$39.1 million, respectively, related to the DWS reportable segment.

In September 2025, the company purchased a group annuity contract, with plan assets, for approximately \$316 million to transfer projected benefit obligations related to approximately 3,150 retirees of one of the company's U.S. defined benefit pension plans. This action resulted in a pre-tax settlement loss of \$227.7 million for the three and nine months ended September 30, 2025.

Results of operations

Company results

Three months ended September 30, 2025 compared with the three months ended September 30, 2024

Revenue for the three months ended September 30, 2025 was \$460.2 million compared with \$497.0 million for the three months ended September 30, 2024, a decrease of 7.4% from the prior-year period. Foreign currency fluctuations had a 2 percentage-point positive impact on revenue in the current period compared with the prior-year period. The decrease was primarily driven by the timing of software license renewals.

License and Support (L&S) represents software license and related support services, primarily ClearPath Forward®, within the company's Enterprise Computing Solutions (ECS) segment. Software license renewals tend to be significant and impactful to revenue and gross profit based on timing, which can fluctuate considerably from quarter to quarter. For the three months ended September 30, 2025, L&S revenue was \$83.0 million compared to \$104.5 million for the three months ended September 30, 2024, a decrease of 20.6%. The decrease was primarily driven by the timing of software license renewals.

Excluding License and Support (Ex-L&S) measures exclude revenue, gross profit and gross profit margin in connection with software license and related support services within the ECS segment. Ex-L&S revenue for the three months ended September 30, 2025 was \$377.2 million compared with \$392.5 million for the three months ended September 30, 2024, a decrease of 3.9%. The decrease was primarily driven by lower volume with clients in the DWS and Cloud, Applications & Infrastructure Solutions (CA&I) reportable segments.

Revenue from international operations for the three months ended September 30, 2025 was \$280.0 million compared with \$286.7 million for the three months ended September 30, 2024, a decrease of 2.3%. Foreign currency had a 3 percentage-point positive impact on international revenue in the current period compared with the prior-year period. Revenue from U.S. operations for the three months ended September 30, 2025 was \$180.2 million compared with \$210.3 million for the three months ended September 30, 2024, a decrease of 14.3%.

During the three months ended September 30, 2025, the company recognized net cost-reduction charges of \$1.0 million related to workforce reductions, which were comprised of: (i) a charge of \$1.6 million for severance costs and (ii) a credit of \$0.6 million for changes in estimates.

During the three months ended September 30, 2024, the company recognized net cost-reduction charges and other costs of \$1.6 million. The net charges related to workforce reductions was \$2.0 million and was comprised of: (i) a charge of \$2.5 million for severance costs and (ii) a credit of \$0.5 million for changes in estimates. The company recorded a net credit of \$0.4 million comprised of a credit of \$0.7 million for net foreign currency gains related to exiting foreign countries and a charge of \$0.3 million for other expenses related to other cost-reduction efforts.

The charges (credits) were recorded in the following statement of income (loss) classifications:

<i>(In millions)</i>	Three Months Ended September 30,	
	2025	2024
Cost of revenue	\$ (0.6)	\$ 1.4
Selling, general and administrative	0.8	0.9
Research and development	0.8	—
Other (expense), net	—	(0.7)
Total	\$ 1.0	\$ 1.6

Gross profit and gross profit margin were \$117.2 million and 25.5% in the three months ended September 30, 2025, respectively, compared with \$145.0 million and 29.2% for the three months ended September 30, 2024, respectively. The decrease was primarily driven by the timing of software license renewals.

Ex-L&S gross profit and gross profit margin for the three months ended September 30, 2025 were \$70.2 million and 18.6%, respectively, compared with \$70.3 million and 17.9% for the three months ended September 30, 2024, respectively.

Selling, general and administrative expense in the three months ended September 30, 2025 was \$90.9 million (19.8% of revenue) compared with \$91.9 million (18.5% of revenue) for the three months ended September 30, 2024.

Research and development expense for the three months ended September 30, 2025 and 2024 was \$4.8 million and \$6.5 million, respectively.

For the three months ended September 30, 2025, the company reported an operating loss of \$33.5 million compared with an operating profit of \$7.5 million in the three months ended September 30, 2024. For the three months ended September 30, 2025 and 2024, operating (loss) profit included goodwill impairment charges of \$55.0 million and \$39.1 million, respectively, related to the DWS reportable segment (see Note 10 of the Notes to Consolidated Financial Statements for details on the goodwill impairment).

Interest expense for the three months ended September 30, 2025 and 2024 was \$18.2 million and \$7.9 million, respectively. The increase was primarily due to increased long-term debt balance and higher interest rate following the issuance of \$700.0 million aggregate principal amount of 10.625% Senior Secured Notes due 2031 (the 2031 Notes) in June 2025.

Other (expense), net was expense of \$241.2 million for the three months ended September 30, 2025 compared with expense of \$8.2 million for the three months ended September 30, 2024. Other (expense), net for the three months ended September 30, 2025 included a U.S. pension plan settlement loss of \$227.7 million. See Note 5 of the Notes to Consolidated Financial Statements for details of other (expense), net.

The loss before income taxes for the three months ended September 30, 2025 was \$292.9 million, compared with a loss of \$8.6 million for the three months ended September 30, 2024. The loss before income taxes for the three months ended September 30, 2025 included a U.S. pension plan settlement loss of \$227.7 million. Additionally, for the three months ended September 30, 2025 and 2024, loss before income taxes included goodwill impairment charges of \$55.0 million and \$39.1 million, respectively, related to the DWS reportable segment.

The provision for income taxes was \$16.3 million for the three months ended September 30, 2025 compared with a provision of \$53.3 million for the three months ended September 30, 2024. The change in the tax provision was primarily driven by the geographic distribution of income and the prior year provision included a provision of \$29.0 million established for certain foreign subsidiaries for which the company is no longer asserting indefinite reinvestment of earnings. The effective tax rate for the three months ended September 30, 2025 and 2024 was (5.6)% and (619.8)%, respectively, primarily driven by U.S. operating losses with no tax benefit as the deferred tax assets are subject to a full valuation allowance, non-creditable withholding taxes in the U.S., jurisdictions with no valuation allowance that are subject to tax and the prior year change in the company's indefinite reinvestment assertion of the earnings in certain foreign subsidiaries.

The company evaluates quarterly the realizability of its deferred tax assets by assessing its valuation allowance and by adjusting such amount, if necessary. The company records a tax provision or benefit for those international subsidiaries that do not have a full valuation allowance against their deferred tax assets. Any profit or loss recorded for the company's U.S. operations will have no provision or benefit associated with it due to the company's valuation allowance, except with respect to refundable tax credits and withholding taxes not creditable against future taxable income. As a result, the company's provision or benefit for taxes may vary significantly period to period depending on the geographic distribution of income.

The realization of the company's net deferred tax assets is primarily dependent on the ability to generate sustained taxable income in various jurisdictions. Judgment is required to estimate forecasted future taxable income, which may be impacted by future business developments, actual results, strategic operational and tax initiatives, legislative, and other economic factors and developments.

It is at least reasonably possible that the company's judgment about the need for, and level of, existing valuation allowances could change in the near term based on changes in objective evidence such as further sustained income or loss in certain jurisdictions, as well as the other factors discussed above, primarily in certain jurisdictions outside of the United States. As such, the company will continue to monitor income levels and mix among jurisdictions, potential changes to the company's operating and tax model, and other legislative or global developments in its determination. It is reasonably possible that such changes could result in a material impact to the company's valuation allowance within the next 12 months. Any increase or decrease in the valuation allowance would result in additional or lower income tax expense in that period and could have a significant impact on that period's earnings.

The net loss attributable to Unisys Corporation for the three months ended September 30, 2025 was \$308.9 million, or \$4.33 per diluted share, compared with a net loss of \$61.9 million, or \$0.89 per diluted share, for the three months ended September 30, 2024. The net loss for the three months ended September 30, 2025 included a U.S. pension plan settlement loss net of tax of \$227.7 million and a goodwill impairment charge of \$55.0 million related to the DWS reportable segment. For the three months ended September 30, 2024, net loss attributable to Unisys Corporation included a goodwill impairment charge of \$39.1 million related to the DWS reportable segment and a tax provision of \$29.0 million established for certain foreign subsidiaries for which the company is no longer asserting indefinite reinvestment of earnings.

Nine months ended September 30, 2025 compared with the nine months ended September 30, 2024

Revenue for the nine months ended September 30, 2025 was \$1,375.6 million compared with \$1,463.0 million for the nine months ended September 30, 2024, a decrease of 6.0% from the prior-year period. The decrease was primarily due to the timing of software license renewals and lower volume with clients. Foreign currency fluctuations had a negligible impact on revenue in the current period compared with the prior-year period.

For the nine months ended September 30, 2025, L&S revenue was \$241.7 million compared to \$279.8 million for the nine months ended September 30, 2024, a decrease of 13.6%. The decrease was primarily driven by the timing of software license renewals.

Ex-L&S revenue for the nine months ended September 30, 2025 was \$1,133.9 million compared with \$1,183.2 million for the nine months ended September 30, 2024, a decrease of 4.2%. The decrease was primarily driven by lower volume with clients in the DWS and CA&I segments.

Revenue from international operations for the nine months ended September 30, 2025 was \$814.0 million, compared with \$836.0 million for the nine months ended September 30, 2024, a decrease of 2.6% from the prior-year period. Foreign currency had a 1 percentage-point negative impact on international revenue in the nine months ended September 30, 2025 compared with the nine months ended September 30, 2024. Revenue from U.S. operations for the nine months ended September 30, 2025 was \$561.6 million, compared with \$627.0 million for the three months ended September 30, 2024, a decrease of 10.4% from the prior-year period.

During the nine months ended September 30, 2025, the company recognized net cost-reduction charges and other costs of \$3.0 million. The net charges related to workforce reductions were \$2.2 million and were comprised of: (i) a charge of \$6.8 million for severance costs and (ii) a credit of \$4.6 million for changes in estimates. The company recorded net charges of \$0.8 million comprised of a charge of \$3.2 million for an asset write-off, a charge of \$0.3 million for other expenses related to cost-reduction efforts and a net credit of \$2.7 million for net foreign currency gains related to exiting foreign countries.

During the nine months ended September 30, 2024, the company recognized net cost-reduction charges and other costs of \$8.5 million. The net charges related to workforce reductions were \$7.9 million and were comprised of: (i) a charge of \$12.2 million for severance costs and (ii) a credit of \$4.3 million for changes in estimates. The company recorded a net charge of \$0.6 million comprised of a charge of \$1.0 million for net foreign currency losses related to exiting foreign countries and a net credit of \$0.4 million for changes in estimates related to other cost-reduction efforts.

The charges (credits) were recorded in the following statement of income (loss) classifications:

<i>(In millions)</i>	Nine Months Ended September 30,	
	2025	2024
Cost of revenue	\$ 4.5	\$ 2.8
Selling, general and administrative	0.4	3.6
Research and development	0.8	1.1
Other (expense), net	(2.7)	1.0
Total	\$ 3.0	\$ 8.5

Gross profit and gross profit margin were \$354.7 million and 25.8% in the nine months ended September 30, 2025, respectively, compared with \$410.9 million and 28.1% in the nine months ended September 30, 2024, respectively. The decrease was primarily driven by the decrease in revenue previously discussed.

Ex-L&S gross profit and gross profit margin for the nine months ended September 30, 2025 were \$204.1 million and 18.0%, respectively, compared with \$215.7 million and 18.2% for the nine months ended September 30, 2024, respectively.

Selling, general and administrative expense in the nine months ended September 30, 2025 was \$281.3 million (20.4% of revenue) compared with \$305.5 million (20.9% of revenue) in the prior-year period. The decrease was primarily driven by lower expense due to realized benefits from the company's previous cost reduction actions and reduced professional services expense.

Research and development expense for the nine months ended September 30, 2025 and 2024 was \$16.5 million and \$17.5 million, respectively.

For the nine months ended September 30, 2025, the company reported an operating profit of \$1.9 million compared with an operating profit of \$48.8 million for the prior-year period. For the nine months ended September 30, 2025 and 2024, operating profit included goodwill impairment charges of \$55.0 million and \$39.1 million, respectively, related to the DWS reportable segment.

Interest expense for the nine months ended September 30, 2025 was \$34.6 million compared with \$23.7 million for the nine months ended September 30, 2024. The increase was primarily due to increased long-term debt balance and higher interest rate following the issuance of \$700.0 million aggregate principal amount of the 2031 Notes in June 2025.

Other (expense), net was expense of \$280.2 million for the nine months ended September 30, 2025 compared with expense of \$159.7 million for the nine months ended September 30, 2024. For the nine months ended September 30, 2025 and 2024, other (expense), net included U.S. pension plan settlement losses of \$227.7 million and \$132.3 million, respectively. Additionally, for the nine months ended September 30, 2025, other (expense), net included a loss on debt extinguishment of \$7.0 million related to the repurchase, satisfaction and discharge of the 6.875% Senior Secured Notes due 2027 (the 2027 Notes). See Note 5 of the Notes to Consolidated Financial Statements for details of other (expense), net.

The loss before income taxes for the nine months ended September 30, 2025 was \$312.9 million compared with a loss of \$134.6 million for the nine months ended September 30, 2024. For the nine months ended September 30, 2025 and 2024, the loss before income taxes included U.S. pension plan settlements losses of \$227.7 million and \$132.3 million, respectively, and goodwill impairment charges of \$55.0 million and \$39.1 million, respectively. Additionally, the loss before income taxes for the nine months ended September 30, 2025 included a loss on debt extinguishment of \$7.0 million related to the repurchase, satisfaction and discharge of the 2027 Notes.

The provision for income taxes was \$46.9 million for the nine months ended September 30, 2025 compared with a provision of \$89.1 million for the nine months ended September 30, 2024. The change in the tax provision was driven by the geographic distribution of income and the prior year provision included a provision of \$29.0 million established for certain foreign subsidiaries for which the company is no longer asserting indefinite reinvestment of earnings. The effective tax rate for the nine months ended September 30, 2025 and 2024 was (15.0)% and (66.2)%, respectively, primarily driven by U.S. operating losses with no tax benefit as the deferred tax assets are subject to a full valuation allowance, non-creditable withholding taxes in the U.S., jurisdictions with no valuation allowance that are subject to tax and the prior year change in the company's indefinite reinvestment assertion of the earnings in certain foreign subsidiaries.

Net loss attributable to Unisys Corporation for the nine months ended September 30, 2025 was \$358.5 million, or \$5.06 per diluted share, compared with a net loss of \$223.4 million, or \$3.23 per diluted share, for the nine months ended September 30, 2024. For the nine months ended September 30, 2025, the net loss attributable to Unisys Corporation included a U.S. pension plan settlement loss net of tax of \$227.7 million, a goodwill impairment charge of \$55.0 million and a loss on debt

extinguishment of \$7.0 million related to the repurchase, satisfaction and discharge of the 2027 Notes. For the nine months ended September 30, 2024, the net loss attributable to Unisys Corporation included a U.S. pension plan settlement loss net of tax of \$132.3 million, a goodwill impairment charge of \$39.1 million and tax provision of \$29.0 million established for certain foreign subsidiaries for which the company is no longer asserting indefinite reinvestment of earnings.

The following table represents Ex-L&S and L&S financial measures:

<i>(In millions, except for numbers presented as percentages)</i>	Three Months Ended September 30,		Nine Months Ended September 30,	
	2025	2024	2025	2024
L&S revenue	\$ 83.0	\$ 104.5	\$ 241.7	\$ 279.8
Ex L&S revenue	377.2	392.5	1,133.9	1,183.2
Total revenue	\$ 460.2	\$ 497.0	\$ 1,375.6	\$ 1,463.0
L&S gross profit	\$ 47.0	\$ 74.7	\$ 150.6	\$ 195.2
Ex-L&S gross profit	70.2	70.3	204.1	215.7
Total gross profit	\$ 117.2	\$ 145.0	\$ 354.7	\$ 410.9
L&S gross profit percent	56.6 %	71.5 %	62.3 %	69.8 %
Ex-L&S gross profit percent	18.6 %	17.9 %	18.0 %	18.2 %
Total gross profit percent	25.5 %	29.2 %	25.8 %	28.1 %

Segment results

The company's reportable segments are as follows:

- Digital Workplace Solutions (DWS), which provides workplace solutions featuring intelligent workplace services, proactive experience management and collaboration tools to support business growth;
- Cloud, Applications & Infrastructure Solutions (CA&I), which provides digital transformation in the areas of cloud migration and management, applications and infrastructure transformation and modernization solutions; and
- Enterprise Computing Solutions (ECS), which provides solutions that harness secure, high-intensity enterprise computing and enable digital services through software-defined operating environments.

The company evaluates the performance of the segments based on segment revenue and segment gross profit. Segment revenue and segment gross profit are exclusive of certain activities and expenses that are not allocated to specific segments including the business activities related to the company's United Kingdom business process outsourcing consolidated joint venture and certain expenses such as cost reduction charges, amortization of purchased intangibles and unusual and nonrecurring items that are not allocated to specific segments. These amounts are combined within other revenue and other gross profit (loss) to arrive at consolidated revenue and consolidated gross profit (loss). See Note 15 of the Notes to Consolidated Financial Statements for the reconciliations of segment revenue to total consolidated revenue and segment gross profit to total consolidated loss before income taxes.

Three months ended September 30, 2025 compared with the three months ended September 30, 2024

A summary of the company's operations by segment is presented below:

	Total Segments	DWS	CA&I	ECS
<i>(In millions, except for numbers presented as percentages)</i>				
Three Months Ended September 30, 2025				
Revenue	\$ 438.9	\$ 125.3	\$ 180.4	\$ 133.2
Gross profit percent	26.7 %	16.2 %	19.6 %	46.2 %
Three Months Ended September 30, 2024				
Revenue	\$ 474.3	\$ 130.9	\$ 189.4	\$ 154.0
Gross profit percent	31.2 %	16.3 %	19.5 %	58.2 %

DWS revenue was \$125.3 million for the three months ended September 30, 2025 and \$130.9 million for the three months ended September 30, 2024, a decrease of 4.3%. The decrease in revenue was primarily driven by lower volume with clients, partially offset by revenue from new business with both new and existing clients. Foreign currency fluctuations had a 2 percentage-point positive impact on DWS revenue in the current period compared with the prior-year period. Gross profit percent was 16.2% in the current period compared with 16.3% in the prior-year period.

CA&I revenue was \$180.4 million for the three months ended September 30, 2025 and \$189.4 million for the three months ended September 30, 2024, a decrease of 4.8%. The decrease in revenue was primarily driven by lower volume with clients in the public sector. Foreign currency fluctuations had a 2 percentage-point positive impact on CA&I revenue in the current period compared with the prior-year period. Gross profit percent was 19.6% in the current period compared with 19.5% in the prior-year period.

ECS revenue was \$133.2 million for the three months ended September 30, 2025 and \$154.0 million for the three months ended September 30, 2024, a decrease of 13.5%. Foreign currency fluctuations had a negligible impact on ECS revenue in the current period compared with the prior-year period. Gross profit percent was 46.2% in the current period compared with 58.2% in the prior-year period. The decrease in revenue and gross profit percent was primarily driven by the timing of software license renewals.

Nine months ended September 30, 2025 compared with the nine months ended September 30, 2024

A summary of the company's operations by segment is presented below:

	Total Segments	DWS	CA&I	ECS
<i>(In millions, except for numbers presented as percentages)</i>				
Nine Months Ended September 30, 2025				
Revenue	\$ 1,316.3	\$ 382.0	\$ 542.2	\$ 392.1
Gross profit percent	27.5 %	15.9 %	20.0 %	49.3 %
Nine Months Ended September 30, 2024				
Revenue	\$ 1,391.0	\$ 395.3	\$ 571.7	\$ 424.0
Gross profit percent	29.5 %	15.6 %	19.9 %	55.5 %

DWS revenue was \$382.0 million for the nine months ended September 30, 2025 and \$395.3 million for the nine months ended September 30, 2024, a decrease of 3.4%. The decrease in revenue was primarily driven by lower volume with clients, partially offset by revenue from new business with new and existing clients, as compared to the prior-year period. Foreign currency fluctuations had a negligible impact on DWS revenue in the current period compared with the prior-year period. Gross profit percent was 15.9% in the current period compared with 15.6% in the prior-year period.

CA&I revenue was \$542.2 million for the nine-months ended September 30, 2025 and \$571.7 million for the nine months ended September 30, 2024, a decrease of 5.2%. The decrease in revenue was primarily driven by lower volume with clients in the public sector. Foreign currency fluctuations had a negligible impact on CA&I revenue in the current period compared with the prior-year period. Gross profit percent was 20.0% in the current period compared with 19.9% in the prior-year period.

ECS revenue was \$392.1 million for the nine months ended September 30, 2025 and \$424.0 million for the nine months ended September 30, 2024, a decrease of 7.5%. Foreign currency fluctuations had a 1 percentage-point negative impact on ECS revenue in the current period compared with the prior-year period. Gross profit percent was 49.3% in the current period compared with 55.5% in the prior-year period. The decrease in revenue and gross profit was primarily driven by the timing of software license renewals.

Total Contract Value and Backlog

Total Contract Value (TCV) represents the initial estimated revenue related to contracts signed in the period without regard for early termination or revenue recognition rules. Changes to contracts and scope are treated as TCV only to the extent of the incremental new value. New Business TCV represents TCV attributable to expansion and new scope for existing clients and new logo contracts. L&S TCV is driven by software license renewals, and as such, changes in timing or terms of renewals can lead to fluctuations from period to period. Measuring TCV involves the use of estimates and judgments and the extent and timing of conversion of TCV to revenue may be impacted by, among other factors, the types of services and solutions sold, contract duration, the pace of client spending, actual volumes of services delivered as compared to the volumes anticipated at the time of contract signing, and contract modifications, including, without limitation, contract nullification and termination, over the lifetime of a contract.

Backlog represents the estimated amount of future revenue to be recognized under contracted work, which has not yet been delivered or performed. The timing of conversion of backlog to revenue may be impacted by, among other factors, the timing of execution, the extension, nullification or early termination of existing contracts with or without penalty, adjustments to estimates in pricing or volumes for previously included contracts, seasonality and foreign currency exchange rates.

The following table summarizes the company's TCV metrics.

<i>(In millions, except numbers presented as percentages)</i>	Three Months Ended September 30,			Nine Months Ended September 30,		
	2025	2024	% Change	2025	2024	% Change
Ex-L&S New Business ⁽ⁱ⁾	\$ 124	\$ 174	(29)%	\$ 583	\$ 573	2 %
Ex-L&S Renewals	230	96	140 %	572	321	78 %
L&S Renewals	61	92	(34)%	131	300	(56)%
Total TCV	\$ 415	\$ 362	15 %	\$ 1,286	\$ 1,194	8 %

⁽ⁱ⁾ New Business relates to expansion and new scope for existing clients and new logo contracts.

For the three months and nine ended September 30, 2025, total TCV was \$415 million and \$1.3 billion, respectively, an increase of 15% and 8%, respectively, compared to the prior-year periods. The increase in both periods was primarily driven by the timing of renewals.

Backlog was \$2.83 billion as of September 30, 2025 compared to \$2.80 billion as of September 30, 2024.

The company believes that actual revenue reflects the most relevant measure necessary to understand the company's results of operations, but TCV can be a useful leading indicator of the company's ability to generate future revenue over time and backlog can be a useful metric and indicator of the company's estimate of contracted revenue to be realized in the future, in each case subject to certain inherent limitations as explained above. TCV and backlog should not be relied upon as substitutes for, or considered in isolation from, measures in accordance with generally accepted accounting principles in the United States of America.

Financial condition

The company's principal sources of liquidity are cash on hand, cash from operations and its revolving credit facility, discussed below. The company and certain international subsidiaries have access to uncommitted lines of credit from various banks. The company believes that it will have adequate sources of liquidity to meet its expected cash requirements for at least the next twelve months.

Cash and cash equivalents at September 30, 2025 were \$321.9 million compared to \$376.5 million at December 31, 2024.

As of September 30, 2025, \$221.7 million of cash and cash equivalents were held by the company's foreign subsidiaries and branches operating outside of the U.S. The company may not be able to readily transfer approximately one-quarter of these funds out of the country in which they are located as a result of local restrictions, contractual or other legal arrangements or commercial considerations. At September 30, 2025, the deferred tax liability on undistributed earnings was \$30.6 million. Transfers of international cash and cash equivalents to the U.S. will require the company to pay withholding or other taxes on a portion of the amount transferred. At September 30, 2025, the company maintained cash balances in various operating accounts

in excess of federally insured limits. The company monitors this risk by evaluating the creditworthiness of the financial institutions.

During the nine months ended September 30, 2025, cash used for operations was \$244.9 million compared to cash provided by operations of \$58.5 million during the nine months ended September 30, 2024, primarily driven by cash contributions to the company's defined benefit pension plans, including a discretionary contribution of \$250 million to its U.S. defined benefit pension plans.

Cash used for investing activities during the nine months ended September 30, 2025 was \$21.6 million compared to cash used for investing activities of \$54.0 million during the nine months ended September 30, 2024. Net proceeds of foreign exchange forward contracts were \$37.0 million for the nine months ended September 30, 2025 compared with net proceeds of \$5.2 million in the prior-year period. Proceeds from foreign exchange forward contracts and purchases of foreign exchange forward contracts represent derivative financial instruments used to reduce the company's currency exposure to market risks from changes in foreign currency exchange rates. During the third quarter of 2025, the company ceased its use of foreign currency forward contracts. In the current period, the investment in marketable software was \$36.1 million compared with \$36.7 million in the prior-year period and capital additions of properties and other assets were \$22.4 million compared with \$22.2 million in the prior-year period.

Cash provided by financing activities during the nine months ended September 30, 2025 was \$188.1 million compared to cash used for financing activities of \$13.7 million during the nine months ended September 30, 2024, primarily driven by the net proceeds received from the issuance of the 2031 Notes, partially offset by the repurchase, satisfaction and discharge of the 2027 Notes, both of which are described below.

At September 30, 2025, total debt was \$734.9 million compared to \$493.2 million at December 31, 2024. The increase in total debt as of September 30, 2025, is primarily due to the issuance of the 2031 Notes, partially offset by the repurchase, satisfaction and discharge of the 2027 Notes.

Senior Secured Notes due 2031

In June 2025, the company completed a private placement offering of \$700.0 million aggregate principal amount of the 2031 Notes. The 2031 Notes will pay interest semiannually on January 15 and July 15, commencing on January 15, 2026. The 2031 Notes are fully and unconditionally guaranteed on a senior secured basis by Unisys Holding Corporation, Unisys AP Investment Company I and Unisys NPL, Inc., each a Delaware corporation that is directly or indirectly wholly owned by the company (the Subsidiary Guarantors). The net proceeds from the issuance of the 2031 Notes, together with cash on hand, were used to finance the company's tender offer to purchase for cash any and all of its outstanding 2027 Notes and solicitation of consents from holders of the 2027 Notes to amendments to the indenture governing the 2027 Notes (the Tender Offer) and the payment of related premiums, fees and expenses. The company also used the net proceeds from the issuance of the 2031 Notes to redeem, on or about November 1, 2025, any 2027 Notes that remained outstanding following the Tender Offer, as explained under the Senior Secured Notes due 2027 section below, and to fund, together with cash on hand a portion of the company's U.S. defined benefit pension plans deficit and postretirement liabilities.

The 2031 Notes and the guarantees by the Subsidiary Guarantors rank equally in right of payment with all of the existing and future senior debt of the company and the Subsidiary Guarantors and senior in right of payment to any future subordinated debt of the company and the Subsidiary Guarantors. The 2031 Notes and the guarantees are structurally subordinated to all existing and future liabilities (including preferred stock, trade payables and pension liabilities) of the subsidiaries of the company that are not Subsidiary Guarantors. The 2031 Notes and the guarantees are secured by liens on substantially all assets of the company and the Subsidiary Guarantors, other than certain excluded assets (the collateral). The liens securing the 2031 Notes on certain Asset Based Lending (ABL) collateral are subordinated to the liens on ABL collateral in favor of the ABL secured parties, subject to certain limitations and permitted liens.

The company may, at its option, redeem some or all of the 2031 Notes at any time on or after January 15, 2028, at a redemption price determined in accordance with the redemption schedule, plus accrued and unpaid interest, if any.

Prior to January 15, 2028, the company may, at its option, redeem some or all of the 2031 Notes at any time, at a price equal to 100% of the principal amount of the 2031 Notes redeemed plus a "make-whole" premium, plus accrued and unpaid interest, if any. The company may also redeem, at its option, up to 40% of the 2031 Notes at any time prior to January 15, 2028, using the proceeds of certain equity offerings at a redemption price of 110.625% of the principal amount thereof, plus accrued and unpaid interest, if any. On or after January 15, 2028, the company may, on any one or more occasions, redeem all or part of the 2031 Notes at specified redemption premiums, declining to par for any redemptions on or after January 15, 2030. Prior to January 15, 2028, the company may redeem up to 10% of the aggregate principal amount of the 2031 Notes during each calendar year, commencing in 2025, at a purchase price equal to 103% of the principal amount of the 2031 Notes, plus accrued and unpaid interest, if any.

The indenture relating to the 2031 Notes contains covenants that limit the ability of the company and its restricted subsidiaries (as defined therein) to, among other things: (i) incur additional indebtedness and guarantee indebtedness; (ii) pay dividends or make other distributions or repurchase or redeem its capital stock; (iii) prepay, redeem or repurchase certain debt; (iv) make loans and investments (including investments by the company and the Subsidiary Guarantors in subsidiaries that are not guarantors); (v) sell assets; (vi) create or incur liens; (vii) enter into transactions with affiliates; (viii) enter into agreements restricting its subsidiaries' ability to pay dividends; and (ix) consolidate, merge or sell all or substantially all of its assets. These covenants are subject to several important limitations and exceptions.

If the company experiences certain kinds of changes of control (as defined in the indenture), it must offer to purchase the 2031 Notes at 101% of the principal amount of the 2031 Notes, plus accrued and unpaid interest, if any. In addition, if the company sells assets under certain circumstances, it must apply the proceeds of such asset sales towards an offer to repurchase the 2031 Notes at a price equal to par plus accrued and unpaid interest, if any.

The indenture also provides for events of default, which, if any of them occur, would permit or require the principal, premium, if any, interest and any other monetary obligations on all the then outstanding 2031 Notes to be due and payable immediately.

Senior Secured Notes due 2027

On June 11, 2025, the company commenced the Tender Offer. The purchase price offered per \$1,000 principal amount of 2027 Notes pursuant to the Tender Offer was \$1,006.25, which included an early tender premium of \$30.00 per \$1,000 principal amount of 2027 Notes. Concurrent with the closing of the issuance of the 2031 Notes, the company paid an aggregate amount of \$488.6 million, including \$3.0 million of early tender premium and \$5.5 million of accrued interest through June 27, 2025, to purchase \$480.1 million of aggregate principal amount outstanding of the 2027 Notes tender in the Tender Offer.

On June 27, 2025, the company satisfied and discharged the indenture relating to the 2027 Notes, issued a notice of redemption for its remaining outstanding principal amount, and deposited U.S. government securities with the trustee of the 2027 Notes to cover the remaining outstanding aggregate principal amount of \$4.9 million, plus accrued but unpaid interest on the 2027 Notes to be redeemed to, but not including, the redemption date.

As a result of the satisfaction and discharge, the indenture relating to the 2027 Notes ceased to be of further effect except as to rights of registration of transfer or exchange of 2027 Notes, which survive until all 2027 Notes have been canceled and the rights, protections and immunities of the trustee, as expressly provided for in the indenture relating to the 2027 Notes.

The satisfaction and discharge of the 2027 Notes resulted in a loss on debt extinguishment of \$7.0 million, reported in other (expense), net, which included \$4.0 million in unamortized debt issuance costs write-off and other expenses and an early tender premium of \$3.0 million paid to repurchase a portion of the 2027 Notes.

Asset Based Lending (ABL) Credit Facility

Concurrently with the issuance of the 2031 Notes, the company entered into an amendment of the company's Amended and Restated ABL Credit Facility that extended the maturity date from October 2027 to June 2030 and modified certain other terms and covenants. The secured revolving credit facility continues to provide for revolving loans and letters of credit up to an aggregate amount of \$125.0 million (with a limit on letters of credit of \$40.0 million), with an uncommitted accordion feature provision allowing for the aggregate amount available to be increased up to \$155.0 million upon the satisfaction of certain specified conditions.

Availability under the credit facility is subject to a borrowing base calculated by reference to the company's receivables. At September 30, 2025, the company had no borrowings and \$9.5 million of letters of credit outstanding. Availability under the credit facility was \$90.6 million, net of letters of credit issued. Any borrowings under the facility will be subject to variable interest rates.

The Amended and Restated ABL Credit Facility is subject to a springing maturity, under which the Amended and Restated ABL Credit Facility will immediately mature 91 days prior to any date on which contributions to pension funds in the United States in an amount in excess of \$100.0 million are required to be paid unless the company is able to meet certain conditions, including that the company has the liquidity (as defined in the Amended and Restated ABL Credit Facility) to cash settle the amount of such pension payments, as applicable, no default or event of default has occurred under the Amended and Restated ABL Credit Facility, the company's liquidity is above \$130.0 million and the company is in compliance with the then applicable fixed charge coverage ratio on a pro forma basis.

The Amended and Restated ABL Credit Facility is guaranteed by Unisys Holding Corporation, Unisys NPL, Inc. and Unisys AP Investment Company I, each of which is a U.S. corporation that is directly or indirectly owned by the company (the subsidiary guarantors) and any future material domestic subsidiaries. The facility is secured by the assets of the company and the subsidiary guarantors, other than certain excluded assets, under a security agreement entered into by the company and the subsidiary guarantors in favor of Bank of America, N.A., as agent for the lenders under the credit facility.

The company is required to maintain a minimum fixed charge coverage ratio if the availability under the Amended and Restated ABL Credit Facility falls below the greater of 10% of the lenders' commitments under the facility and \$12.5 million.

The Amended and Restated ABL Credit Facility contains customary representations and warranties, including, but not limited to, that there has been no material adverse change in the company's business, properties, operations or financial condition. The Amended and Restated ABL Credit Facility includes restrictions on the ability of the company and its subsidiaries to, among other things, incur other debt or liens, dispose of assets and make acquisitions, loans and investments, repurchase its equity, and prepay other debt. These restrictions are subject to several important limitations and exceptions. Events of default include non-payment, failure to comply with covenants, materially incorrect representations and warranties, change of control and default under other debt aggregating at least \$50.0 million, subject to relevant cure periods, as applicable.

At September 30, 2025, the company has met all covenants and conditions under its various lending and funding agreements. For at least the next 12 months, the company expects to continue to meet these covenants and conditions.

Pension and Postretirement Benefits

In September 2025, the company purchased a group annuity contract, with plan assets, for approximately \$316 million to transfer projected benefit obligations related to approximately 3,150 retirees of one of the company's U.S. defined benefit pension plans. This action resulted in a pre-tax settlement loss of \$227.7 million for both the three and nine months ended September 30, 2025. This annuity contract purchase transaction is the first step in the company's plan to reduce approximately \$600 million of U.S. qualified defined benefit pension plan liabilities through the end of 2026.

At the end of each year, the company estimates its future cash contributions to its global defined benefit pension plans based on year-end pension data, assumptions and agreements.

For the nine months ended September 30, 2025, the company made cash contributions totaling \$317.2 million, which included a discretionary contribution of \$250 million to its U.S. defined benefit pension plans. The discretionary contribution was funded in the second quarter of 2025 with approximately \$200 million from the net proceeds of issuance of the 2031 Notes and \$50 million from cash on hand. As a result, the company's pension and postretirement liabilities and projected future required cash contributions were reduced. The company also made strategic changes to its underlying investments in its U.S. qualified defined benefit pension plans, leading to a future expected decrease in the return on plan assets to 4.9% compared to an expected return of 7.0% as of December 31, 2024.

For the remainder of 2025, the company expects to make cash contributions of approximately \$24 million primarily to its U.S. defined benefit pension plans. This will result in total expected cash contributions for 2025 of approximately \$342 million to the company's global defined benefit pension plans, including approximately \$309 million to the company's U.S. defined benefit pension plans and approximately \$33 million primarily to the company's international defined benefit pension plans.

Based on current legislation, global regulations, recent interest rates and expected returns, the company estimates future total cash contributions to its global defined benefit pension plans of approximately \$78 million in 2026.

For the nine months ended September 30, 2024, the company made cash contributions of \$17.6 million primarily to its international defined benefit pension plans. In 2024, the company made cash contributions of \$21.9 million primarily to its international defined benefit pension plans.

If the company is not able to generate sufficient cash flows from operations, it may need to obtain additional funding in order to make these contributions. Any material deterioration in the value of the company's global defined benefit pension plan assets, as well as changes in pension legislation, volatility in the capital markets, discount rate changes, asset return changes, or changes in economic or demographic trends, could require the company to make cash contributions in different amounts and on a different schedule than previously estimated.

The company will continue to evaluate opportunities for additional reduction of its global defined benefit pension obligations in future periods depending on overall market conditions. As a result of the company's significant accumulated other comprehensive losses associated with its pension and postretirement plans, any future group annuity contract purchase could result in material non-cash settlement losses, if executed.

From time to time, the company may explore a variety of additional debt and equity sources to fund its liquidity and capital needs.

The company may, from time to time, redeem, tender for, or repurchase its securities in the open market or in privately negotiated transactions depending upon availability, market conditions and other factors.

The company does not have any off-balance sheet arrangements that are material or reasonably likely to become material to its financial condition or results of operations.

Critical accounting policies and estimates

There have been no significant changes to the company's critical accounting policies and estimates as reported in its Annual Report on Form 10-K for the year ended December 31, 2024.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There has been no material change in the company's assessment of its sensitivity to market risk since its disclosure in its Annual Report on Form 10-K for the year ended December 31, 2024.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

As of the end of the period covered by this Quarterly Report, management performed, with the participation of the Chief Executive Officer (CEO) and the Chief Financial Officer (CFO), an evaluation of the effectiveness of the company's disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended (the Exchange Act). In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Based upon that evaluation, the CEO and the CFO concluded that, as of September 30, 2025, the company's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the U.S. Securities and Exchange Commission (SEC), and that such information is accumulated and communicated to management, including the CEO and CFO, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2025, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Part II - OTHER INFORMATION

Item 1. Legal Proceedings

Information with respect to legal proceedings is set forth in Note 12 of the Notes to Consolidated Financial Statements, and such information is incorporated herein by reference.

Item 1A. Risk Factors

There have been no material changes to the “Risk Factors” in Part I, Item 1A of the company’s Annual Report on Form 10-K for the year ended December 31, 2024 and Part II, Item 1A of the company’s Quarterly Report on Form 10-Q for the quarter ended June 30, 2025, except as follows:

Impairment of goodwill has negatively impacted our results of operations. If goodwill or intangible assets are further or fully impaired in the future, our results of operations will be negatively impacted even further.

On an annual basis, and whenever circumstances arise, we review goodwill and intangible assets for impairment. The impairment test is based on several factors, estimates and assumptions, including macroeconomic conditions, industry and market considerations, overall financial performance, market capitalization and relevant entity-specific events. Significant changes to these factors could impact the assumptions used in calculating the fair value of goodwill or intangible assets and may indicate potential impairment. As described in Note 10 of the Notes to Consolidated Financial Statements in Part I, Item 1 of this Quarterly Report on Form 10-Q, during the quarter ended September 30, 2025, we determined that a triggering event had occurred and therefore performed a quantitative goodwill impairment test for the Digital Workplace Solutions reporting unit. As a result, we recorded a goodwill impairment charge of \$55.0 million for the three months ended September 30, 2025. We will continue to conduct an impairment analysis of our goodwill and intangible assets on an annual basis, as well as whenever there are events or changes in circumstances (triggering events), which indicate that the carrying amount may not be recoverable. We could be required to record additional impairment charges in the future if any recoverability assessments reflect estimated fair values that are less than the recorded values of our reporting units. Further impairments of our goodwill or intangible assets would adversely affect our results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 5. Other Information

During the three months ended September 30, 2025, none of our directors or officers (as defined in Rule 16a-1(f) of the Securities Exchange Act of 1934, as amended) adopted or terminated a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (as such terms are defined in Item 408(a) of Regulation S-K of the Securities Act of 1933, as amended).

Item 6. Exhibits

CERTIFICATION

I, Michael M. Thomson, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Unisys Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
